

BIG DATA TRAINING FOR CANCER RESEARCH

Summer 2021 Purdue University

Purdue University Center for Cancer Research (PCCR) and Indiana University Simon Comprehensive Cancer Center (IUSCCC) are pleased to announce the annual NCI-funded workshop on “Big Data Training for Cancer Research” on **June 7 -20, 2021**. This 14-day intensive workshop will help cancer researchers develop skills for managing, visualizing, analyzing, and integrating various types of omics data in cancer studies. The course is open to cancer researchers including oncologists, faculty, postdoctoral researchers, and graduate students. Individuals from underrepresented groups are especially encouraged to apply.

*There is no cost for registration and tuition!**The workshop is planned to be held **virtually**, but is subject to change due to COVID-19 impacts. We might resume on-site workshops at Purdue University, in West Lafayette, IN, if the situation allows. In case of on-site workshop, there will be no cost for lodging, and travel scholarships are available for a limited number of participants. Please watch our website for updates.
