Special Series

Creating Teaching Portfolios
Looking for an academic job? Do you have your Teaching Portfolio and E-Portfolio ready? In this workshop you will learn the purpose of a teaching portfolio and identify the components of both traditional and e-portfolios. This will be a hands-on workshop in a computer lab, where you will get a chance to start creating your own e-portfolio!

Wednesday, February 8th, 2:00-3:30 p.m.– SC 183
http://www.itap.purdue.edu/training/registration/?offeringid=5439

Best Practices for Creating Effective Posters
Are you going to be presenting a poster at a conference soon? In this hands-on, interactive session you will learn guidelines for creating effective poster presentations, how to communicate the information summarized on your poster, and view and discuss posters created by others.

Wednesday, March 7th, 2:00-3:30 p.m.– KRAN G009
http://www.itap.purdue.edu/training/registration/?offeringid=5440

Advanced Teaching Portfolio Techniques
Do you have a Teaching Portfolio, E-Portfolio, or drafts and ideas ready to be created? This workshop builds from the “Creating Teaching Portfolios” workshop as an advanced workshop to help you improve and expand on your e-portfolios. This is a hands on workshop in a computer lab. Basic web site design or editing via content management systems is recommended.
