

SPRING 2025

THE TWO HUNDRED FIFTY FIFTH

COMMENCEMENT OF

PURDUE UNIVERSITY

Edward C. Elliott Hall of Music | West Lafayette, Indiana

THE PURDUE HYMN

Close by the Wabash, in famed Hoosier land,
Stands old Purdue serene and grand;
Cherished in memory, by all her sons and daughters true;
Fair Alma Mater, All Hail, Purdue,
Fairest in all the land, our own Purdue.
Fairest in all the land, our own Purdue.

HAIL PURDUE

To your call once more we rally,
Alma Mater, hear our praise;
Where the Wabash spreads its valley,
Filled with joy our voices raise.
From the skies in swelling echoes,
Come the cheers that tell the tale,
Of your vict'ries and your heroes,
Hail Purdue! We sing All Hail!

CHORUS

Hail, Hail to old Purdue!
All Hail to our old gold and black!
Hail, Hail to old Purdue!
Our friendship may she never lack.
Ever grateful, ever true,
Thus we raise our song anew,
Of the days we've spent with you,
All Hail our own Purdue.

THE SPRING 2025 COMMENCEMENT:

PURDUE'S 255TH COMMENCEMENT

A PERSPECTIVE

The academic heritage that evolved during the Middle Ages provided us with a teaching institution, the university; a method of measuring academic progress, degrees; and a structure for an appropriate ceremony recognizing the student's achievement, commencement. In June 1875, Purdue University held its first commencement outdoors on the Oval, awarding the Bachelor of Science degree to a class of one. In 1903, commencement was moved indoors to the newly-completed Eliza Fowler Hall. The steady growth of the size of the graduating class necessitated moving the exercises to larger and larger facilities: the Memorial Gymnasium, the Armory, the Field House, and in 1940, to the Edward C. Elliott Hall of Music. In December of 1942, the first winter commencement was added with the first summer commencement added in August 1943. The commencement at the West Lafayette campus is being held today for graduates who qualified for their degrees at the end of the current semester. The colorful ceremony, enacted each year on campuses throughout the world, is the formal climax and recognition of the graduates' years of study and preparation. In 2025, across Spring, Summer and Winter Commencements, about 13,000 will graduate with their undergraduate, graduate or professional degrees from West Lafayette and Indianapolis.

*Designated as a Distinguished Military Graduate

The designation of "Distinguished Military Graduate" indicates selected individuals who have demonstrated a particularly high level of achievement while earning both an academic degree and a commission in the Armed Forces of the United States. Criteria used in making the selection include demonstrated performance and leadership in course work as well as in athletics and extracurricular functions. The candidate must also maintain at least a "B" average in all course work while ranking in the upper third of his or her contemporaries for the Army or Navy, or the upper tenth for the Air Force. Commissionees so designated receive an appropriately inscribed certificate from their respective service.

PURDUE STUDENT ATHLETES

This program is not an official graduation list

While every effort is made to ensure accuracy in this commencement program, printing deadlines sometimes prevent inclusions of graduates' names, or may result in the use of names of persons not completing graduation requirements. This printed program, therefore, should not be used to determine a student's academic or degree status. The University's official registry for conferral of degrees is the student's permanent academic record, kept by the Office of the Registrar, Stewart Center Room 176, West Lafayette, IN 47907.

FIRST DIVISION

STUDENT SPEAKER

Kendrick Hardaway
*College of Engineering, Edwardson School of
Industrial Engineering*

Kendrick Hardaway of Poteau, Oklahoma, is receiving a Doctor of Philosophy in environmental and ecological engineering and a Master of Science in industrial engineering.

Kendrick was a Fulbright research scholar in New Zealand, an Andrews fellow, a Bilsland fellow and a Latinx Trailblazer in Engineering fellow. He was a visiting researcher at the University of Stavanger in Norway and the Athens University of Economics and Business in Greece.

Kendrick has been recognized with multiple awards, including the Estus H. and Vashti L. Magoon Award for Excellence in Research and in Teaching and the Ecological Sciences and Engineering program's Outstanding Graduate Student in Teaching Award. He was also nominated to Purdue's Teaching Academy.

Kendrick served as the Division of Environmental and Ecological Engineering's graduate student senator, a University Senate Sustainability Committee member and commissioner of the West Lafayette Go Greener Commission.

After graduation, Kendrick plans to pursue a career in academia as a professor, focusing on strategies for climate change mitigation and climate adaptation.

SECOND DIVISION

STUDENT RESPONDER

Sydney Hefty
College of Agriculture

Sydney Hefty of Auburn, Indiana, is receiving a Bachelor of Science in agribusiness.

Sydney held several leadership positions with the Purdue Cooperative Council, including serving as president and vice president of administration. She served the Purdue Foundation Student Board as head of the Student Organization Alumni Relations program and member of the philanthropy committee, and she was the recruitment co-chair for the Ag Week Task Force. She also served on the board of the Purdue Grand Prix Foundation and participated in three study abroad opportunities.

Sydney was a retail sales intern with Hormel Foods, a corporate business operations/sales intern with Caterpillar Inc. and an air seeding product marketing intern with John Deere. She was a top four finalist for the National FFA Organization's American Star in Agriscience. She was also the recipient of a scholarship from the American Soybean Association.

After graduation, Sydney will join Credent Wealth Management as a wealth advisor.

THIRD DIVISION

STUDENT RESPONDER

Luke Ford
*College of Engineering,
School of Mechanical Engineering*

Luke Ford of Chicago, Illinois, is receiving a Bachelor of Science in mechanical engineering.

Luke was a Purdue Engineering Fellow. He served as president of the Barbara Cook Chapter of Mortar Board and was a host coordinator co-chair on the Purdue Rising Professionals Central Committee. He was also a member of the Purdue Student Life Student Advisory Board.

Luke served as an undergraduate research assistant in the Purdue Experimental Turbine Aerothermal Lab. He completed a short training program in the Turbomachinery and Propulsion Department at von Karman Institute for Fluid Dynamics in Belgium and was a mechanical design and integration engineer at Northrop Grumman Corp. Luke was also a technical project manager project manager for EPICS, a Purdue service-learning design program in which teams of students partner with local and global community organizations to address human, community and environmental needs.

After graduation, Luke will pursue his master's degree in mechanical engineering at Purdue.

FOURTH DIVISION

STUDENT RESPONDER

Abigail Mizzi
*College of Engineering, School of Aeronautics
and Astronautics*

Abigail Mizzi of Bloomingdale, Illinois, is receiving a Bachelor of Science in aeronautical and astronautical engineering.

Abigail served as president of the Purdue Society of Women Engineers, one of the largest student organizations on campus, and previously served as technical director and social director, overseeing multiple projects within the organization. She was a propulsion specialist for the Purdue Space Program's hybrid propulsion team. She also was a member of the John Martinson Honors College.

Abigail held multiple internships with Northrop Grumman Corp. in the flight test and design engineering areas. She previously worked for Raytheon Technologies' Collins Aerospace as an avionics test engineering intern. She also served as an undergraduate research assistant in the Maha Fluid Power Research Center and the Center for Integrated Systems in Aerospace.

After graduation, Abigail will pursue a master's degree in aeronautical and astronautical engineering and work as a flight test integration engineer at Lockheed Martin.

FIFTH DIVISION

STUDENT RESPONDER

Allison Boyd
Polytechnic Institute

Allison Boyd of Washington, Indiana, will receive a Bachelor of Science in aeronautical engineering technology.

Allison was a 2024 Harry S. Truman Scholar and a 2025 Marshall Scholar. She served as president of Purdue Aviation Technology Student Council, president of Purdue's Aeronautical Engineering Technology and Maintenance student organization, and vice president of communications and director of activities for Purdue Aviation Day. She was also the founder of Hatchet Mentoring and served as a Purdue Aviation Ambassador.

Allison worked as a thermal systems engineering intern with Blue Origin, a product support engineering intern with Lockheed Martin and an exploration mission planning systems engineering intern with NASA. Her research experience includes serving as a principal investigator with the NASA L'SPACE Program and evaluating AI, digital twinning and predictive maintenance in Federal Aviation Administration (FAA) Part 147 programs at Purdue. She is a NASA-certified proposal reviewer and earned her airframe and powerplant certification from the FAA.

After graduation, Allison will pursue a master's degree in transport at Imperial College London and a master's degree in civil engineering at University of Manchester.

SIXTH DIVISION

STUDENT RESPONDER

Snigdha Mishra
College of Science

Snigdha Mishra of Milpitas, California, will receive a Bachelor of Science in data science.

Snigdha was a member of the John Martinson Honors College, where she served as global house leader. She was a participant in University Residences' Men's and Women's Leadership Series, a student ambassador with the Executive in Residence program, and a peer mentor through the Global Science Partners program. She also served as a consultant for ATS Healthcare through Boilermaker Consulting.

Snigdha won second place in the Deloitte's StartUp Purdue case competition. She developed a demand-focused forecasting model for John Deere as an undergraduate research assistant in The Data Mine and served as a business analyst for Lafayette Futbol. She also served as an undergraduate teaching assistant for two classes.

After graduation, Snigdha will join Ernst & Young as a technology consultant.

SEVENTH DIVISION

STUDENT RESPONDER

Alex Worthing
College of Science

Alex Worthing of Ogallala, Nebraska, is receiving a dual Bachelor of Science in planetary sciences and atmospheric science.

Alex was a member of Air Force ROTC, where he served as vice wing commander, cadet operations squadron commander, space affairs officer and cadet delta flight commander. He was a coordinator for Boiler Catholic Men and a Catholic Ministry team leader at St. Thomas Aquinas Catholic Church. He also served as a Purdue Space Day team leader and was a member of the Purdue Astronomy Club, Planetary Science Society of Purdue and Purdue University Meteorological Association.

Alex was part of the organizational team responsible for the development and implementation of the 2024 U.S. Space Force Azimuth experience. He was named a Field Training Distinguished Graduate and earned the Field Training Warrior Spirit Award at Maxwell Air Force Base. He is a Federal Aviation Administration certified private pilot and a National Oceanic and Atmospheric Administration certified storm spotter.

After graduation, Alex will begin his active-duty commitment as a second lieutenant in the United States Space Force, training to serve as a space operations officer.

EIGHTH DIVISION

STUDENT RESPONDER

Shelby Sliger
College of Agriculture

Shelby Sliger of Lafayette, Indiana, will receive a Bachelor of Science in biochemistry.

Shelby was a recipient of the 2024 Barry M. Goldwater Scholarship and 2024 Astronaut Scholarship and is one of only nine Purdue students to ever receive both scholarships. She served as president of the Biochemistry Club and was the organization's agriculture council representative. She was also a test writer for Indiana Science Olympiad tournaments, a teaching assistant, and served in the College of Agriculture as an ambassador and Dean's Scholars program peer mentor.

Shelby has been deeply engaged in research in Purdue's Ogas Lab. Her works includes lead authorship on a published paper with authorship in a second research article under review. She presented research twice at the Annual Meeting of the American Society for Biochemistry and Molecular Biology and received a summer research fellowship from the American Society of Plant Biologists.

After graduation, Shelby plans to enroll in a biomedical sciences doctoral program at the University of Michigan to research cancer cells.

NINTH DIVISION

STUDENT RESPONDER

Jessica Kobrick
College of Health & Human Sciences

Jessica Kobrick of Lake in the Hills, Illinois, is receiving a Bachelor of Science in psychological sciences.

Jessica served as vice president of recruitment and associate vice president of operations for the Purdue Panhellenic Association. She was named the Lafayette Alumni Panhellenic Woman of the Year in recognition of her service. She served as den mom for the Delta Mu chapter of Alpha Phi International Fraternity. She was also an activity planner for Food Finders Food Bank.

Jessica served as an undergraduate intern and part-time wellness coach with Counseling Simplified in West Lafayette and was the child care lead for Resurrection Presbyterian Church. She served as a research assistant for Operation Military Experience, a national military study researching the effects on military deployment and family systems.

After graduation, Jessica will be attending graduate school to pursue a master's degree in clinical psychology.

TENTH DIVISION

STUDENT RESPONDER

Sam Wadlington
Mitch Daniels School of Business

Sam Wadlington of Sugar Land, Texas, is receiving a Bachelor of Science in integrated business and engineering.

Sam held multiple leadership positions with Boilermaker Consulting, including president and managing director, and he was project manager for the organization's collaboration with Shell TechWorks. He served as the vice president of external events for the Larsen Leaders Academy, was a member of the Purdue president/dean selection committee and won first place in the Kelley-Krannert Case Competition.

Sam worked as an investment banking summer analyst at Goldman Sachs, an investments intern at the U.S. Department of Energy's Loan Programs Office, a project management intern and civil aerospace procurement intern at Rolls-Royce, and a home sales intern at Keller Williams Realty. He was named one of Poets&Quants' 100 Best & Brightest Undergraduate Business Majors of 2025.

After graduation, Sam will join BDT & MSD Partners as an analyst.

SECOND DIVISION

HONORARY DEGREE RECIPIENT

Ronald Klemencic
*Chair and CEO,
Magnusson Klemencic Associates*

Ron Klemencic is chair and CEO of Magnusson Klemencic Associates (MKA), an award-winning structural and civil engineering firm founded in 1920. A globally recognized innovator and leading expert in high-rise structural engineering, Klemencic is sought after for his creativity, big-picture approach, and ability to consistently produce cost-effective and inventive designs.

As a director of the Charles Pankow Foundation, the National Council of Structural Engineers Associations Foundation and the MKA Foundation, he champions the research and development of new technologies and systems that further the structural engineering profession. Throughout his career, he has played a key role in groundbreaking innovations, including performance-based seismic design; the development and successful application of the first-of-its-kind, nonproprietary SpeedCore structural system; and advancements in performance-based wind and structural fire design.

Klemencic has held leadership roles in numerous professional organizations. He is a distinguished member of the American Society of Civil Engineers and serves on its Industry Leaders Council. He has received the organization's OPAL award for design and Dennis L. Tewksbury Award for outstanding service to the Structural Engineering Institute.

He is an honorary member of the American Institute of Architects, served as a voting member of the American Concrete Institute's 318 committee and was a member of the organization's board of directors. He chaired the Council on Tall Buildings and Urban Habitat and was awarded the organization's Fazlur R. Khan Lifetime Achievement Medal in 2016. He is also a member of both the National Academy of Construction and the National Academy of Engineering.

Klemencic earned Master of Science in structural engineering from the University of California, Berkeley in 1986 and a Bachelor of Science in civil engineering from Purdue University in 1985.

TENTH DIVISION

HONORARY DEGREE RECIPIENT

Marshall Larsen

*Director, Air Lease Corporation and retired
Chair, President, and CEO of
Goodrich Corporation*

Marshall Larsen is the retired chair, president and CEO of Goodrich Corp. and currently serves on the board of directors for Air Lease Corp.

Larsen began his 35-year career at Goodrich as an operations analyst in 1977. He quickly advanced through various leadership roles, including serving as director of planning analysis and director of product marketing. In 2003, he was tapped for Goodrich's top leadership position — a role that he held until 2012, when the company was acquired by United Technologies Corp., now Raytheon.

Larsen is regarded for his ability to create long-term value in a global and corporately responsible marketplace. In 2013, Harvard Business Review named Larsen one of the top 100 Best-Performing CEOs in the World. Under his tenure, Goodrich, which had 80 facilities with 25,000 employees in 19 countries, was lauded for its green technology practices and efforts to reduce its effect on the environment.

He has held prominent board member positions throughout his career — serving as chair of the U.S. Aerospace Industries Association and on the board of directors for the Federal Reserve Bank of Richmond, Becton Dickinson and Co., Lowe's Cos. Inc. and Raytheon, among many others.

Larsen earned a Bachelor of Science in engineering from the U.S. Military Academy at West Point in 1970 and served six years in the military, graduating from both the Army Airborne and Army Ranger schools. He earned a Master of Science in industrial administration from Purdue University in 1977.

Larsen and his wife, Susan, established the Marshall and Susan Larsen Leadership Academy in the Daniels School of Business in 2018. The academy helps undergraduate students develop leadership skills through cocurricular experiences, coaching and mentoring.

The couple has three children: Amanda, Lauren and Cameron.

THE JOHN MARTINSON HONORS COLLEGE

The Purdue Honors College provides an interdisciplinary environment for undergraduate students from across all areas of study. Graduates of the Honors College are recognized with a medallion worn at graduation ceremonies, an honors designation on their diploma, and notation on their academic record. Students complete an honors enriched curriculum and conduct a scholarly research project. Honors College graduates are noted in the commencement program by the + beside their name. The torch is the official symbol of the Honors College, reflecting the intent to ignite students' imaginations.

The Purdue Honors College was established in 2013 with pathways to honors across majors. The Honors College was built on a rich legacy of honors programs at the college and departmental levels. Recognition of students completing honors at the departmental level are recognized via a certificate and notation.

The following students in addition to being candidates for a bachelor's degree, are also candidates for special recognition for the satisfactory completion of the requirements in the Purdue Honors College.

DISTINCTION AND HIGHEST DISTINCTION

PROFESSIONAL AND UNDERGRADUATE DEGREES

The outstanding scholastic achievement of selected professional and undergraduate degree recipients is recognized by awarding the degree “with distinction” or “with highest distinction.”

To be eligible for consideration, a graduate must have a minimum of 65 credit hours included in the graduation index for the professional or baccalaureate degree and 35 credit hours included in the graduation index for the associate degree, with a minimum graduation index of 3.30. The upper 10 percent of the graduates in each of the colleges or schools receive degrees “with distinction.” Of the graduates who thus qualify, the upper three-tenths of the professional, baccalaureate and associate graduates receive their degrees “with highest distinction,” regardless of the college or school from which they graduate.

The minimum graduation indexes thus determined in May for each college or school are applied for graduation “with distinction” and “with highest distinction” for the subsequent sessions. Recognition is evidenced by placing an appropriate seal on the diploma and entering an appropriate notation on the academic record. Graduates who are potential candidates for degrees “with distinction” wear gold honor cords; those who are potential candidates for degrees “with highest distinction” wear gold and black honor cords.
