The Two Hundred Fiftieth
Commencement of
**PURDUE
UNIVERSITY**

Edward C. Elliott Hall of Music
West Lafayette, Indiana

The Purdue Hymn

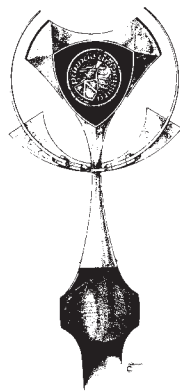

*Close by the Wabash, in famed Hoosier land,
Stands old Purdue serene and grand;
Cherished in memory, by all her sons and daughters true;
Fair Alma Mater, All Hail, Purdue,
Fairest in all the land, our own Purdue.
Fairest in all the land, our own Purdue.*

Hail Purdue

*To your call once more we rally,
Alma Mater, hear our praise;
Where the Wabash spreads its valley,
Filled with joy our voices raise.
From the skies in swelling echoes,
Come the cheers that tell the tale,
Of your vict'ries and your heroes,
Hail Purdue! We sing All Hail!*

Chorus

*Hail, Hail to old Purdue!
All Hail to our old gold and black!
Hail, Hail to old Purdue!
Our friendship may she never lack.
Ever grateful, ever true,
Thus we raise our song anew,
Of the days we've spent with you,
All Hail our own Purdue.*

The Purdue University Mace is used at every commencement exercise. It was designed and crafted by David Peterson, a former professor in the Department of Visual and Performing Arts (Division of Art and Design), and assistant professor of Jewelry and Metalsmithing at Purdue. The historical significance of the mace is described on page 3.

THE SUMMER 2023 COMMENCEMENT: PURDUE'S 250TH COMMENCEMENT

A Perspective

Purdue University owes a substantial debt to its medieval predecessors for its commencement ceremony and academic attire. The academic heritage that evolved during the Middle Ages provided us with a teaching institution, the university; a method of measuring academic progress, degrees; and a structure for an appropriate ceremony recognizing the student's achievement, commencement. In June 1875, Purdue University held its first commencement outdoors on the Oval, awarding the Bachelor of Science degree to a class of one. In 1903, commencement was moved indoors to the newly-completed Eliza Fowler Hall. The steady growth of the size of the graduating class necessitated moving the exercises to larger and larger facilities: the Memorial Gymnasium, the Armory, the Field House, and in 1940, to the Edward C. Elliott Hall of Music. In December of 1942, the first winter commencement was added with the first summer commencement added in August 1943. The commencement at the West Lafayette campus is being held today for graduates who qualified for their degrees at the end of the current semester. The colorful ceremony, enacted each year on campuses throughout the world, is the formal climax and recognition of the graduates' years of study and preparation. In 2023, across Spring, Summer and Winter Commencements, about 13,000 will graduate with their undergraduate, graduate or professional degrees from West Lafayette.

THE USE OF ACADEMIC EMBLEMS

The Seal

Seals are common to all corporate bodies and have been used since ancient times to authenticate documents. They constituted the official signatures of emperors, bishops, and corporations. University seals evolved from those of church corporations. In Europe, the early faculties and student nations possessed seals; in the United States, all colleges and universities have had seals since Colonial days. The current Purdue Seal was officially adopted in 1969 and retains elements of earlier versions, which evolved beginning in 1890. The seal features a stylized depiction of the griffin, the mythological beast with the head of an eagle and the body of a lion. In medieval heraldry, the griffin symbolized strength. The three-part shield represents Purdue's traditional aims: learning, discovery, and engagement. The seal combines these traditional elements with modern simplicity of design to form one of the most distinctive of university symbols.

The University Mace

The mace has an ancient history as a symbol of authority. Originally giant clubs made of iron and capable of breaking armor, maces were used chiefly by knights. They were also often borne by a royal bodyguard to protect the king in processions. In the course of time, by the 14th century, they assumed more ceremonial functions and lost their warlike appearance, as they began to be decorated with jewels and precious metals. In 1649, the English House of Commons obtained a mace. In 1756, a silver mace was made for the colony of South Carolina; it is still in use in the state capital at Columbia. In the United States House of Representatives, the mace is placed to the right of the speaker. As a symbol of order and authority, a mace is carried before the president and other dignitaries in the platform party in commencement processions. As a reflection of the modern vision of a truly American university, the design of the Purdue Mace embraces sweeping thrusts and counterthrusts to create a vital energy within an otherwise clean, linear aesthetic. The University seal is located in the center of the mace-head; bounding it are two sweeping silver wings.

The Presidential Medallion

Closely allied with maces and seals as symbols of authority is the medallion of office worn by many officials, including chancellors and presidents of universities. The medallion is inscribed with the seal of the institution and are worn over the academic gown on public occasions, particularly at commencements. Located in the center of Purdue's Presidential Medallion is the three-part "heraldic shield" and griffin, the symbol which has existed throughout Purdue's long history of University seals. The medallion, as well as the mace, was handcrafted from sterling silver, ebony, and gold, using the centuries-old techniques of swedging, forging, hollow-forming, and silver soldering.

The Banners

The banners, sometimes known as standards or gonfalons (a flag that hangs from a crosspiece or frame), originated in the medieval republics of Italy as an ensign of state or office. They have been adopted in many universities around the world as school or institutional insignias. The fourteen banners displayed represent the University, the Graduate School, and the ten undergraduate colleges or schools at the West Lafayette campus. The colors of the University, old gold and black, are joined together in a pattern common to all the banners. The bands are the same colors as the tassels worn on the mortarboard of the college's or school's graduates.

Each college or school is represented on its banner by a symbol and two colored bands indicating its major academic discipline.

The Teaching Medallion

The medallion identifies members of the Purdue University Teaching Academy, a dedicated and dynamic network of scholar-teachers committed to the continual improvement of teaching and learning at Purdue University. Under the auspices of the Office of the Executive Vice President for Academic Affairs, the Teaching Academy works with the academic schools, the Center for Instructional Excellence, and others to enrich the educational experiences of the entire Purdue University community. The mission of the Teaching Academy is to provide leadership and serve as a catalyst to enhance and strengthen the quality of undergraduate, graduate, and outreach teaching and learning.

Purdue's commencement exercises have been held in many different locations through the years, ranging from a large circus tent on the Oval in the 1880's to their present site in the Edward C. Elliott Hall of Music. Commencement in the early 1930's was held in the memorial Gymnasium, now Haas Hall. Limited space for guest seating soon necessitated a move to the larger facilities in the Armory.

PURDUE STUDENT ATHLETE

Graduates wearing the student athlete medallion are recognized for their hard work and dedication in balancing their equally demanding academic and athletic commitments. At Purdue, where student-athletes are real students, taking real courses, earning honest grades, this is no small accomplishment, and we applaud their achievement.

The following students in addition to being candidates for a bachelor's degree, are also candidates for special recognition.

*Designated as a Distinguished Military Graduate

The designation of "Distinguished Military Graduate" indicates selected individuals who have demonstrated a particularly high level of achievement while earning both an academic degree and a commission in the Armed Forces of the United States. Criteria used in making the selection include demonstrated performance and leadership in course work as well as in athletics and extracurricular functions. The candidate must also maintain at least a "B" average in all course work while ranking in the upper third of his or her contemporaries for the Army or Navy, or the upper tenth for the Air Force. Commissionees so designated receive an appropriately inscribed certificate from their respective service.

This program is not an official graduation list

While every effort is made to ensure accuracy in this commencement program, printing deadlines sometimes prevent inclusions of graduates' names, or may result in the use of names of persons not completing graduation requirements. This printed program, therefore, should not be used to determine a student's academic or degree status. The University's official registry for conferral of degrees is the student's permanent academic record, kept by the Office of the Registrar, 610 Purdue Mall, West Lafayette, IN 47907-2040.

FIRST DIVISION

Guest Speaker

JOSEPH L. WATKINS
COO and Co-Founder of Socio

Joe Watkins is the co-founder of Socio, one of Purdue's most successful all-student startups.

A South Bend native, Joe demonstrated his entrepreneurial drive beginning in high school, when he started working as a computer technology consultant, serving more than 600 clients. Following high school, Joe attended Purdue as an engineering student and participated in the university's Undergraduate Co-op Program, gaining three years of hands-on experience in engineering and computer science with S&C Electric Company in Chicago.

Joe's entrepreneurial focus moved forward at Purdue, where he – together with Purdue undergraduates Yarkin Sakucoglu and Alihan Ozbayrak – co-founded Socio, a modern event technology platform that manages the full life cycle of multisession, multitrack virtual, in-person and hybrid conferences – from registration to post-event analytics.

Headquartered in Indianapolis and with an office in Istanbul, Socio built up a prestigious list of enterprise customers including Microsoft, Google, PepsiCo, Comcast and Hyundai, and raised \$6.7 million in funding.

Socio's success earned Joe and his co-founders a Forbes 30 Under 30 award in 2020. In July 2021, Fortune 100 company Cisco acquired Socio, now known as Webex Events, where Joe now serves as chief customer officer and is responsible for net revenue retention.

Student Responder

Olivia Buenconsejo Coats
College of Agriculture

Olivia Buenconsejo Coats of Fort Wayne, Indiana, is receiving a Bachelor of Science in business marketing.

Olivia was most recently an entrepreneurial leaders intern at Bain & Company, a management consulting company in Chicago, Illinois. Olivia also served as digital communications assistant for Purdue Honors College and a marketing and promotions intern for Purdue Athletics.

During part of her time in West Lafayette, she acted as the marketing lead for Launch Campus Ministry and volunteered as a group lead at Blackhawk Ministries in Fort Wayne.

Olivia plans to focus on dental school requirements to pursue a career in dentistry after graduation.

SECOND DIVISION

Speaker of the 250th Commencement

ERIC HOLCOMB
Governor of Indiana

Eric J. Holcomb, 51st Governor of the State of Indiana, is a lifelong Hoosier and veteran of the U.S. Navy. Elected by his fellow Hoosiers to a second term in 2020, he received the most votes for governor in Indiana history.

Earning a reputation as a pragmatic consensus builder, Holcomb frequently travels throughout the state, visiting with Hoosiers about how to make Indiana the best place in the world to live, work, study, play and stay. Under Holcomb's leadership, Indiana's economy is strong, the state's finances are honestly balanced, and the state is streamlining government services and returning dollars to Hoosier taxpayers, while simultaneously delivering significant investments and advancements in infrastructure, education, workforce, quality of life and public health.

During Holcomb's terms, Indiana employees and employers are enjoying consecutive record-breaking years of job commitments. In 2022, companies committed a record-breaking \$22.2 billion in capital investment. In 2023, Forbes ranked Indiana the number one best state in the U.S. to start a business. Actively seeking to build global relationships and attract investments in Indiana's economic growth, Holcomb has made 14 international trips as governor, visiting more than 20 nations.

Maintaining Indiana's "Crossroads of America" infrastructure and strengthening Indiana's connections between our communities is a top priority for Holcomb. He implemented a long-term, fully-funded 20-year, \$60 billion Next Level Roads program. In 2019 and again in 2022, CNBC ranked Indiana number one in the nation for infrastructure.

Holcomb has worked to align Indiana's K-12, higher education, workforce and economic development efforts to empower Hoosiers with the necessary skills to succeed in the economy of the future. He signed into law historic, increased investments in education, including a record \$1.9 billion in new funding for education in the current budget. He unveiled the Next Level Jobs program to prepare and connect more Hoosiers to high-demand, high-wage careers.

Holcomb created the Governor's Public Health Commission in 2021 to study and make recommendations about how Indiana can improve the delivery of public health services throughout the state. For his efforts in the public health arena and focus on helping Hoosiers with substance use disorder recover, the Richard M. Fairbanks Foundation honored him with the Circle of Hope Award in 2019.

Holcomb serves on the Executive Committee of the Republican Governors Association and previously served as its policy chairman. In 2018, The Hill named him one of ten governors shaping the future of politics. An article in Governing magazine read, "Indiana's governor doesn't scream, doesn't threaten, and doesn't even complain. He just wins."

A lifelong basketball fan, Holcomb has made a basket in each of Indiana's 92 counties. A collector of presidential signatures, he has documents signed by every U.S. president. He is a graduate of Pike High School in Indianapolis and Hanover College in southeastern Indiana. Prior to his election as Governor in 2016, following an unprecedented 106-day campaign, Holcomb served as Indiana's 51st Lieutenant Governor.

Holcomb and his wife, Janet, live with their Miniature Schnauzer, Henry, and cat, Topper, in the Governor's Residence in Indianapolis.

Student Responder

Sameeta Chunara
College of Health and Human Sciences

Sameeta Chunara of Plano, Texas, is receiving a Bachelor of Science in public health.

Sameeta worked as an undergraduate researcher in the College of Health and Human Sciences and participated in Purdue's Certificate in Entrepreneurship and Innovation Program. She also served as the health and wellness director at Kappa Delta sorority and was part of Purdue's Women in Business organization.

Sameeta volunteered with the Girl Scouts of Northeast Texas and received a Gold Award for a 100-hour service project. She also was a teen court jury member with the city of Plano and volunteer teacher assistant and secretary on an Ismaili Muslim council.

This summer, Sameeta will intern as part of an international program at Aga Khan University in Pakistan. Following graduation, she will pursue a Master of Health Administration degree at Tulane University's Graduate School of Public Health and Tropical Medicine.

The main gates to the campus were given to the University by the Class of 1897 in keeping with a long-standing tradition. Facing State Street and looking south to the ag campus beyond, they were wide enough to permit the bicycle and buggy traffic of their youth. But with the advent of fewer horses and more horsepower not too many years later, they were moved farther apart. The gateways were removed from their permanent location in 1956 before construction was begun on Stewart Center and now stand on the Memorial Mall near John Purdue's grave. In this photo, Heavilon Hall and the original Eliza Fowler Hall can be seen in the background.

Built in 1872 as Boarding Hall, this was the first permanent building to be erected north of State Street. When Purdue opened in September of 1874, it housed the college dining room, living quarters for new faculty and their families, and the office for Purdue's second president, Abraham C. Shortridge. Also known for a time as Art Hall, when classes in that subject were taught in some of the rooms on the first floor, it was used for the major part of its existence as the women's residence hall, Ladies Hall. It faced State Street just a few steps east of where Matthews Hall now stands. Ladies Hall was torn down in 1927—one of the first major University buildings to disappear from campus.

PURDUE HONORS COLLEGE

The Purdue Honors College provides an interdisciplinary environment for undergraduate students from across all areas of study. Graduates of the Honors College are recognized with a medallion worn at graduation ceremonies, an honors designation on their diploma, and notation on their academic record. Students complete an honors enriched curriculum and conduct a scholarly research project. Honors College graduates are noted in the commencement program by the torch beside their name. The torch is the official symbol of the Honors College, reflecting the intent to ignite students' imaginations.

The Purdue Honors College was established in 2013 with pathways to honors across majors. The Honors College was built on a rich legacy of honors programs at the college and departmental levels. Recognition of students completing honors at the departmental level are recognized via a certificate and notation.

The following students in addition to being candidates for a bachelor's degree, are also candidates for special recognition for the satisfactory completion of the requirements in the Purdue Honors College.

Purdue's commencement exercises have been held in many different locations through the years, ranging from a large circus tent on the Oval in the 1880's to their present site in the Edward C. Elliott Hall of Music. Commencement in the early 1930's was held in the memorial Gymnasium, now Haas Hall. Limited space for guest seating soon necessitated a move to the larger facilities in the Armory.

DISTINCTION AND HIGHEST DISTINCTION

Professional and Undergraduate Degrees

The outstanding scholastic achievement of selected professional and undergraduate degree recipients is recognized by awarding the degree "with distinction" or "with highest distinction." Eligible candidates with superior academic records who are expected to graduate in May are designated as potential candidates for this special recognition at the beginning of the spring semester and are so identified in the commencement program. The final determination of those who actually receive this recognition is made at the conclusion of the semester and is based upon the final graduation index.

A minimum of 65 credit hours included in the graduation index for the professional or baccalaureate degree and 35 credit hours included in the graduation index for the associate degree, with a minimum graduation index of 3.30 are required for a graduate to be eligible for consideration. The upper 10 percent of the May graduates in each of the various colleges or schools receive degrees "with distinction." Of the graduates who thus qualify, the upper three-tenths of the professional, baccalaureate and associate graduates receive their degrees "with highest distinction," regardless of the college or school from which they graduate. The minimum graduation indexes thus determined in May for each college or school are applied for graduation "with distinction" and "with highest distinction" for the subsequent summer session and fall semester. Recognition is evidenced by placing an appropriate seal on the diploma and entering an appropriate notation on the academic record. Graduates who are potential candidates for degrees "with highest distinction" wear special gold and black honor cords during the commencement ceremony; those who are potential candidates for degrees "with distinction" wear gold honor cords.
