THE COMMENCEMENT CEREMONY

A Perspective

Purdue University owes a substantial debt to its medieval predecessors for its commencement ceremony and academic attire. The academic heritage that evolved during the Middle Ages provided us with a teaching institution, the university; a method of measuring academic progress, degrees; and a structure for an appropriate ceremony recognizing the student's achievement, commencement. In June 1875, Purdue University held its first commencement outdoors on the Oval, awarding the Bachelor of Science degree to a class of one. In 1903, commencement was moved indoors to the newly-completed Eliza Fowler Hall. The steady growth of the size of the graduating class necessitated moving the exercises to larger and larger facilities: the Memorial Gymnasium, the Armory, the Field House, and in 1940, to the Edward C. Elliott Hall of Music. The 247th commencement at the West Lafayette campus is being held today for graduates who qualified for their degrees at the end of the current semester. The colorful ceremony, enacted each year on campuses throughout the world, is the formal climax and recognition of the graduates' years of study and preparation.

Academic Attire

Graduate candidates for degrees wear a black tassel on the left side of the square Oxford cap, or mortarboard, signifying receipt of a previous degree. At Purdue, the color of the trim on the hood identifies the areas of specialization.

THE USE OF ACADEMIC EMBLEMS

The Seal

Seals are common to all corporate bodies and have been used since ancient times to authenticate documents. They constituted the official signatures of emperors, bishops, and corporations. University seals evolved from those of church corporations. In Europe, the early faculties and student nations possessed seals; in the United States, all colleges and universities have had seals since Colonial days. The current Purdue Seal was officially adopted in 1969 and retains elements of earlier versions, which evolved beginning in 1890. The seal features a stylized depiction of the griffin, the mythological beast with the head of an eagle and the body of a lion. In medieval heraldry, the griffin symbolized strength. The three-part shield represents Purdue's traditional aims: learning, discovery, and engagement. The seal combines these traditional elements with modern simplicity of design to form one of the most distinctive of university symbols.

The University Mace

The mace has an ancient history as a symbol of authority. Originally giant clubs made of iron and capable of breaking armor, maces were used chiefly by knights. They were also often borne by a royal bodyguard to protect the king in processions. In the course of time, by the 14th century, they assumed more ceremonial functions and lost their warlike appearance, as they began to be decorated with jewels and precious metals. In 1649, the English House of Commons obtained a mace. In 1756, a silver mace was made for the colony of South Carolina; it is still in use in the state capital at Columbia. In the United States House of Representatives, the mace is placed to the right of the speaker. As a symbol of order and authority, a mace is carried before the president and other dignitaries in the platform party in commencement processions. As a reflection of the modern vision of a truly American university, the design of the Purdue Mace embraces sweeping thrusts and counterthrusts to create a vital energy within an otherwise clean, linear aesthetic. The University seal is located in the center of the mace-head; bounding it are two sweeping silver wings.

The Presidential Medallion

Closely allied with maces and seals as symbols of authority are the collars of office worn by many officials, including chancellors and presidents of universities. Collars usually include a medallion inscribed with the seal of the institution and are worn over the academic gown on public occasions, particularly at commencements. Located in the center of Purdue's Presidential Medallion is the three-part "heraldic shield" and griffin, the symbol which has existed throughout Purdue's long history of University seals. The medallion, as well as the mace, was handcrafted from sterling silver, ebony, and gold, using the centuries-old techniques of swedging, forging, hollow-forming, and silver soldering.

The Banners

The banners, sometimes known as standards or gonfalons (a flag that hangs from a crosspiece or frame), originated in the medieval republics of Italy as an ensign of state or office. They have been adopted in many universities around the world as school or institutional insignias. The fourteen banners displayed represent the University, the Graduate School, and the twelve undergraduate colleges or schools at the West Lafayette campus. The colors of the University, old gold and black, are joined together in a pattern common to all the banners. The bands are the same colors as the tassels worn on the mortarboard of the college's or school's graduates.

Each college or school is represented on its banner by a symbol and two colored bands indicating its major academic discipline.

The Teaching Medallion

The medallion identifies members of the Purdue University Teaching Academy, a dedicated and dynamic network of scholar-teachers committed to the continual improvement of teaching and learning at Purdue University. Under the auspices of the Office of the Executive Vice President for Academic Affairs, the Teaching Academy works with the academic schools, the Center for Instructional Excellence, and others to enrich the educational experiences of the entire Purdue University community. The mission of the Teaching Academy is to provide leadership and serve as a catalyst to enhance and strengthen the quality of undergraduate, graduate, and outreach teaching and learning.

THE PURDUE UNIVERSITY SEAL

The Purdue seal is used as the University's formal signature — a confirmation of authenticity on all official documents.

The first Purdue seal was designed in 1890. The current seal, designed in 1968 by Al Gowan to retain elements of all eight previous versions, is used on official University documents such as diplomas, letters of acceptance and communication from the Board of Trustees and the president.

Today's seal features a stylized griffin, the mythological creature with an eagle's head and lion's body. In medieval heraldry, the griffin symbolized strength. The three-sectioned shield represents Purdue's traditional aims: education, research and service.

ORGAN PRELUDE

ORGAN PRELUDE

Jeffrey P. Stearns, Organist

Sinfonia (BWV 29)

J.S. Bach

J.S. Bach (1685-1750) was a monumentally prolific German composer of the Baroque period, a master of polyphony, and a keyboard virtuoso. Bach wrote over 190 cantatas alone. The Sinfonia is an instrumental piece from the cantata "We Thank Thee, God." Bach's penchant for order is exemplified in the exuberant scales and sequences that are intended to lead the listener to feelings of gratitude, joy and optimism.

Carillon de Westminster (Op. 54, No. 6)

Louis Vierne

The works of Louis Vierne (1870-1937) include five organ symphonies as well as numerous smaller works, such as his Four Suites for Organ. "Carillon de Westminster" is from Vierne's Third Suite and has as its musical motif the melody of the bells of "Big Ben," the clock in Westminster Cathedral.

Final (Sonata in D-minor, Op. 42)

Alexandre Guilmant

Alexandre Guilmant (1837-1911) was an organ virtuoso and master of improvisation in France during the Romantic period. He served as organist at St. Sulpice, Notre Dame and Ste. Trinite in Paris. Guilmant was also organ professor at the Paris Conservatory and was one of the founders of the Schola Cantorum. The Sonata in D-minor is dedicated to His Majesty Leopold II. The "Final" movement is in classic ABA form with an extension in D major invoking a procession with cascading scales and fanfares.

COMMENCEMENT FANFARE

The Mace and the Banners

Jeffrey Stearns

Jeffrey Stearns (M.S. 1988) taught music at West Lafayette Junior/Senior High School for 30 years and is retired from that position. In his time at the school he served as department leader, K-12 Music Communicator, developed and taught courses in Electronic Music and Music Appreciation, taught Music Theory, worked with junior and senior high choristers and orchestra students, and was a mentor for first year music teachers. Mr. Stearns remains Organist and Director of Adult Music at Central Presbyterian Church in Lafayette where he has served since 1986. "The Mace and the Banners" is one of several organ fanfares that Mr. Stearns has written especially for commencement ceremonies at Purdue.

GUEST SPEAKERS

First Division

Paul K. Kearns

Paul K. Kearns has served as Director of the U.S. Department of Energy's Argonne National Laboratory since 2017. Kearns manages a growing multidisciplinary science and engineering research center with a \$1.2 billion diversified research portfolio and more than 3,300 employees, 8,000 facility users, and 800 visiting researchers. Kearns served as Argonne Chief Operations Officer from 2010 to 2017.

Kearns is a biologist and accomplished steward of diverse scientific resources to achieve ambitious goals in energy, environment, and national security. For over 30 years, Kearns has managed complex research and development enterprises by prioritizing science and technology leadership, operations excellence, and world-class talent.

Kearns' resume includes five years as an executive with Battelle Global Laboratory Operations and accomplished tenures with the U.S. Department of Energy's Idaho National Engineering and Environmental Laboratory and Pacific Northwest National Laboratory.

Kearns is a fellow of the American Association for the Advancement of Science. He serves on the DOE National Laboratory Directors' Council and the U.S. Council on Competitiveness' National Commission on Innovation and Competitiveness Frontiers.

Kearns has a doctorate and a master's degree in bionucleonics and bachelor's degree in natural resources and environmental sciences, all from Purdue University. He and his wife, Lynn Kearns, have three children and four grandchildren.

Second Division

Clint Chapple

Clint Chapple's research on the biosynthesis of the plant cell wall polymer lignin has contributed to our understanding of how lignin content and composition can be manipulated in plants, a topic that has implications for the use of lignocellulosic feedstocks in industry and agriculture. Chapple attended the University of Guelph from which he received his B.Sc. and M.Sc. in botany and his Ph.D. in chemistry in 1989, after which he did post-doctoral research at Michigan State University in the Department of Energy Plant Research Lab. In 1993 he joined the Department of Biochemistry and served as head from 2008 to 2015. From 2015-2020 he served as Director of the Purdue Center for Plant Biology. Chapple was recognized with Purdue's Herbert Newby McCoy Award in 2011, and was recently inducted into the Book of Great Teachers. In 2002, he was named a Fellow of the American Association for the Advancement of Science, in 2020 a Fellow of the American Association of Plant Biologists, and in 2022, a member of the National Academy of Sciences. He has served on the editorial boards of *The Plant Journal*, *Plant Physiology*, *The Plant Cell*, and *Annual Reviews of Plant Biology*.

STUDENT RESPONDER

First Division

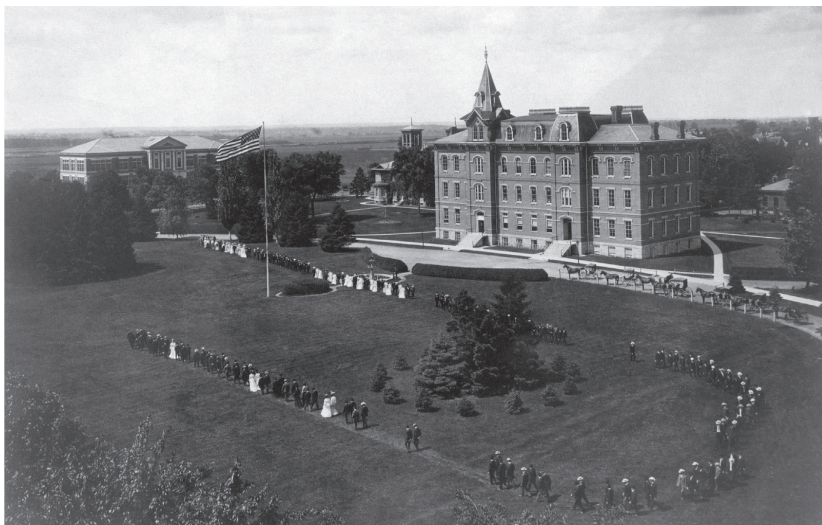

William S. Raymer
College of Engineering
Graduate School

William Raymer is receiving a Master of Science degree in industrial engineering.

William grew up in the Democratic Republic of the Congo before moving to Utah at the age of 16, and he is fluent in four languages: English, French, Lingala and Swahili. William earned a bachelor's degree in mathematics and statistics composite from Utah State University and served as a member of the Air Force Reserve Officer Training Corps. He graduated in the top third of his reserve officers training corps and was selected to become an officer in the United States Space Force.

At Purdue, William is a member of the Purdue Military Research Institute (PMRI). His research focuses on how the PMRI program can help officers have a greater impact when they enter the U.S. Space Force.

William will continue as a PhD student at Purdue in the fall and upon graduation will serve as a space operations officer with the U.S. Space Force.

The faculty and candidate procession passes across the Purdue Oval at the commencement in 1903, the first year commencement exercises were held in Eliza Fowler Hall. Participants dressed in regular clothes, since the use of caps and gowns for graduation was not to be adopted by the senior class until 1922.

The main gates to the campus were given to the University by the Class of 1897 in keeping with a long-standing tradition. Facing State Street and looking south to the ag campus beyond, they were wide enough to permit the bicycle and buggy traffic of their youth. But with the advent of fewer horses and more horsepower not too many years later, they were moved farther apart. The gateways were removed from their permanent location in 1956 before construction was begun on Stewart Center and now stand on the Memorial Mall near John Purdue's grave. In this photo, Heavilon Hall and the original Eliza Fowler Hall can be seen in the background.

Built in 1872 as Boarding Hall, this was the first permanent building to be erected north of State Street. When Purdue opened in September of 1874, it housed the college dining room, living quarters for new faculty and their families, and the office for Purdue's second president, Abraham C. Shortridge. Also known for a time as Art Hall, when classes in that subject were taught in some of the rooms on the first floor, it was used for the major part of its existence as the women's residence hall, Ladies Hall. It faced State Street just a few steps east of where Matthews Hall now stands. Ladies Hall was torn down in 1927—one of the first major University buildings to disappear from campus.

PURDUE HONORS COLLEGE

The Purdue Honors College provides an interdisciplinary environment for undergraduate students from across all areas of study. Graduates of the Honors College are recognized with a medallion worn at graduation ceremonies, an honors designation on their diploma, and notation on their academic record. Students complete an honors enriched curriculum and conduct a scholarly research project. Honors College graduates are noted in the commencement program by the torch beside their name. The torch is the official symbol of the Honors College, reflecting the intent to ignite students' imaginations.

The Purdue Honors College was established in 2013 with pathways to honors across majors. The Honors College was built on a rich legacy of honors programs at the college and departmental levels. Recognition of students completing honors at the departmental level are recognized via a certificate and notation.

The following students in addition to being candidates for a bachelor's degree, are also candidates for special recognition for the satisfactory completion of the requirements for the University Honors College.

DISTINCTION AND HIGHEST DISTINCTION

Professional and Undergraduate Degrees

The outstanding scholastic achievement of selected professional and undergraduate degree recipients is recognized by awarding the degree "with distinction" or "with highest distinction." Eligible candidates with superior academic records who are expected to graduate in May are designated as potential candidates for this special recognition at the beginning of the spring semester and are so identified in the commencement program. The final determination of those who actually receive this recognition is made at the conclusion of the semester and is based upon the final graduation index.

A minimum of 65 credit hours included in the graduation index for the professional or baccalaureate degree and 35 credit hours included in the graduation index for the associate degree, with a minimum graduation index of 3.30 are required for a graduate to be eligible for consideration. The upper 10 percent of the May graduates in each of the various colleges or schools receive degrees "with distinction." Of the graduates who thus qualify, the upper three-tenths of the professional, baccalaureate and associate graduates receive their degrees "with highest distinction," regardless of the college or school from which they graduate. The minimum graduation indexes thus determined in May for each college or school are applied for graduation "with distinction" and "with highest distinction" for the subsequent summer session and fall semester. Recognition is evidenced by placing an appropriate seal on the diploma and entering an appropriate notation on the academic record. Graduates who are potential candidates for degrees "with highest distinction" wear special gold and black honor cords during the commencement ceremony; those who are potential candidates for degrees "with distinction" wear gold honor cords.

COMMISSIONS IN THE ARMED FORCES

The President of the United States has commissioned the following graduates as Second Lieutenants, United States Army:

Evan M. Harding
Mitchell J. Ucchino

*Designated as a Distinguished Military Graduate

The designation of "Distinguished Military Graduate" indicates selected individuals who have demonstrated a particularly high level of achievement while earning both an academic degree and a commission in the Armed Forces of the United States. Criteria used in making the selection include demonstrated performance and leadership in course work as well as in athletics and extracurricular functions. The candidate must also maintain at least a "B" average in all course work while ranking in the upper third of his or her contemporaries for the Army or Navy, or the upper tenth for the Air Force. Commissionees so designated receive an appropriately inscribed certificate from their respective service.

This program is not an official graduation list

While every effort is made to ensure accuracy in this commencement program, printing deadlines sometimes prevent inclusions of graduates' names, or may result in the use of names of persons not completing graduation requirements. This printed program, therefore, should not be used to determine a student's academic or degree status. The University's official registry for conferral of degrees is the student's permanent academic record, kept by the Office of the Registrar, 610 Purdue Mall, West Lafayette, IN 47907-2040.

PURDUE STUDENT ATHLETE

Graduates wearing the student athlete medallion are recognized for their hard work and dedication in balancing their equally demanding academic and athletic commitments. At Purdue, where student-athletes are real students, taking real courses, earning honest grades, this is no small accomplishment, and we applaud their achievement.

The following students in addition to being candidates for a bachelor's degree, are also candidates for special recognition.
