THE COMMENCEMENT CEREMONY

A Perspective

Purdue University owes a substantial debt to its medieval predecessors for its commencement ceremony and academic attire. The academic heritage that evolved during the Middle Ages provided us with a teaching institution, the university; a method of measuring academic progress, degrees; and a structure for an appropriate ceremony recognizing the student's achievement, commencement. In June 1875, Purdue University held its first commencement outdoors on the Oval, awarding the Bachelor of Science degree to a class of one. In 1903, commencement was moved indoors to the newly-completed Eliza Fowler Hall. The steady growth of the size of the graduating class necessitated moving the exercises to larger and larger facilities: the Memorial Gymnasium, the Armory, the Field House, and in 1940, to the Edward C. Elliott Hall of Music. The 248th commencement at the West Lafayette campus is being held today for graduates who qualified for their degrees at the end of the current semester. The colorful ceremony, enacted each year on campuses throughout the world, is the formal climax and recognition of the graduates' years of study and preparation.

Academic Attire

Graduate candidates for degrees wear a black tassel on the left side of the square Oxford cap, or mortarboard, signifying receipt of a previous degree. At Purdue, the color of the trim on the hood identifies the areas of specialization.

THE USE OF ACADEMIC EMBLEMS

The Seal

Seals are common to all corporate bodies and have been used since ancient times to authenticate documents. They constituted the official signatures of emperors, bishops, and corporations. University seals evolved from those of church corporations. In Europe, the early faculties and student nations possessed seals; in the United States, all colleges and universities have had seals since Colonial days. The current Purdue Seal was officially adopted in 1969 and retains elements of earlier versions, which evolved beginning in 1890. The seal features a stylized depiction of the griffin, the mythological beast with the head of an eagle and the body of a lion. In medieval heraldry, the griffin symbolized strength. The three-part shield represents Purdue's traditional aims: learning, discovery, and engagement. The seal combines these traditional elements with modern simplicity of design to form one of the most distinctive of university symbols.

The University Mace

The mace has an ancient history as a symbol of authority. Originally giant clubs made of iron and capable of breaking armor, maces were used chiefly by knights. They were also often borne by a royal bodyguard to protect the king in processions. In the course of time, by the 14th century, they assumed more ceremonial functions and lost their warlike appearance, as they began to be decorated with jewels and precious metals. In 1649, the English House of Commons obtained a mace. In 1756, a silver mace was made for the colony of South Carolina; it is still in use in the state capital at Columbia. In the United States House of Representatives, the mace is placed to the right of the speaker. As a symbol of order and authority, a mace is carried before the president and other dignitaries in the platform party in commencement processions. As a reflection of the modern vision of a truly American university, the design of the Purdue Mace embraces sweeping thrusts and counterthrusts to create a vital energy within an otherwise clean, linear aesthetic. The University seal is located in the center of the mace-head; bounding it are two sweeping silver wings.

The Presidential Medallion

Closely allied with maces and seals as symbols of authority are the collars of office worn by many officials, including chancellors and presidents of universities. Collars usually include a medallion inscribed with the seal of the institution and are worn over the academic gown on public occasions, particularly at commencements. Located in the center of Purdue's Presidential Medallion is the three-part "heraldic shield" and griffin, the symbol which has existed throughout Purdue's long history of University seals. The medallion, as well as the mace, was handcrafted from sterling silver, ebony, and gold, using the centuries-old techniques of swedging, forging, hollow-forming, and silver soldering.

The Banners

The banners, sometimes known as standards or gonfalons (a flag that hangs from a crosspiece or frame), originated in the medieval republics of Italy as an ensign of state or office. They have been adopted in many universities around the world as school or institutional insignias. The fourteen banners displayed represent the University, the Graduate School, and the ten undergraduate colleges or schools at the West Lafayette campus. The colors of the University, old gold and black, are joined together in a pattern common to all the banners. The bands are the same colors as the tassels worn on the mortarboard of the college's or school's graduates.

Each college or school is represented on its banner by a symbol and two colored bands indicating its major academic discipline.

The Teaching Medallion

The medallion identifies members of the Purdue University Teaching Academy, a dedicated and dynamic network of scholar-teachers committed to the continual improvement of teaching and learning at Purdue University. Under the auspices of the Office of the Executive Vice President for Academic Affairs, the Teaching Academy works with the academic schools, the Center for Instructional Excellence, and others to enrich the educational experiences of the entire Purdue University community. The mission of the Teaching Academy is to provide leadership and serve as a catalyst to enhance and strengthen the quality of undergraduate, graduate, and outreach teaching and learning.

THE PURDUE UNIVERSITY SEAL

The Purdue seal is used as the University's formal signature — a confirmation of authenticity on all official documents.

The first Purdue seal was designed in 1890. The current seal, designed in 1968 by Al Gowan to retain elements of all eight previous versions, is used on official University documents such as diplomas, letters of acceptance and communication from the Board of Trustees and the president.

Today's seal features a stylized griffin, the mythological creature with an eagle's head and lion's body. In medieval heraldry, the griffin symbolized strength. The three-sectioned shield represents Purdue's traditional aims: education, research and service.

Purdue's commencement exercises have been held in many different locations through the years, ranging from a large circus tent on the Oval in the 1880's to their present site in the Edward C. Elliott Hall of Music. Commencement in the early 1930's was held in the memorial Gymnasium, now Haas Hall. Limited space for guest seating soon necessitated a move to the larger facilities in the Armory.

ORGAN PRELUDE

ORGAN PRELUDE

Jeffry P. Stearns, Organist

Sinfonia (BWV 29)

J. S. Bach

J. S. Bach (1685-1750) was a monumentally prolific German composer of the Baroque period, a master of polyphony, and a keyboard virtuoso. Bach wrote over 190 cantatas alone. The Sinfonia is an instrumental piece from the cantata "We Thank Thee, God." Bach's penchant for order is exemplified in the exuberant scales and sequences that are intended to lead the listener to feelings of gratitude, joy and optimism.

Carillon de Westminster (Op. 54, No. 6)

Louis Vierne

The works of Louis Vierne (1870-1937) include five organ symphonies as well as numerous smaller works, such as his Four Suites for Organ. "Carillon de Westminster" is from Vierne's Third Suite and has as its musical motif the melody of the bells of "Big Ben," the clock in Westminster Cathedral.

Final (Sonata in D-minor, Op. 42)

Alexandre Guilmant

Alexandre Guilmant (1837-1911) was an organ virtuoso and master of improvisation in France during the Romantic period. He served as organist at St. Sulpice, Notre Dame and Ste. Trinite in Paris. Guilmant was also organ professor at the Paris Conservatory and was one of the founders of the Schola Cantorum. The Sonata in D-minor is dedicated to His Majesty Leopold II. The "Final" movement is in classic ABA form with an extension in D major invoking a procession with cascading scales and fanfares.

COMMENCEMENT FANFARE

The Mace and the Banners

Jeffry Stearns

Jeffry Stearns (M. S. 1988) taught music at West Lafayette Junior/Senior High School for 30 years and is retired from that position. In his time at the school he served as department leader, K-12 Music Communicator, developed and taught courses in Electronic Music and Music Appreciation, taught Music Theory, worked with junior and senior high choristers and orchestra students, and was a mentor for first year music teachers. Mr. Stearns remains Organist and Director of Adult Music at Central Presbyterian Church in Lafayette where he has served since 1986. "The Mace and the Banners" is one of several organ fanfares that Mr. Stearns has written especially for commencement ceremonies at Purdue.

GUEST SPEAKERS

First and Second Divisions

David A. Ricks
*Chair and Chief Executive Officer
Eli Lilly and Company*

Dave Ricks is chair and chief executive officer of Eli Lilly and Company. A Lilly veteran for more than 25 years, with experience in marketing, sales, drug development and international operations, Dave became CEO in January 2017 and was elected chair of the company's board of directors effective June 2017.

Dave served as president of Lilly Bio Medicines from 2012 through 2016. He led the company's largest affiliate, Lilly USA, as president from 2009 to 2012. Prior to that, Dave served in international leadership roles for nearly eight years. He served as president and general manager of Lilly China, operating in one of the world's fastest growing emerging markets, from 2008 to 2009. He led Lilly Canada as general manager from 2005 to 2008, after roles as director of pharmaceutical marketing and national sales director in that country. Dave joined Lilly in 1996 as a business development associate and held several management roles in U.S. marketing and sales before moving to Lilly Canada.

Dave earned a Bachelor of Science degree from Purdue University in 1990 and a Master of Business Administration degree from Indiana University in 1996. Dave is on the board of Adobe and is the immediate past chair of the board of the Pharmaceutical Research and Manufacturers of America (PhRMA). Dave is a member of the International Federation of Pharmaceutical Manufacturers & Association's CEO Steering Committee, The Business Council, Business Roundtable, and the U.S. Patent and Trademark Office's Council for Inclusive Innovation.

Closer to home, Dave is also heavily engaged in the development and well being of Central Indiana. He serves on the board of the Central Indiana Corporate Partnership and on the Riley Children's Foundation board of governors.

Third Division

Shelley MacDermid Wadsworth
*Distinguished Professor of Human
Development and Family Studies*

Shelley M. MacDermid Wadsworth is a Distinguished Professor of Human Development and Family Studies at Purdue University, where she directs the Center for Families, as well as the Military Family Research Institute, which she co-founded. Dr. MacDermid Wadsworth holds an M.B.A. in Management and M.S. and Ph.D. degrees in Human Development and Family Studies from The Pennsylvania State University. Her primary research interest is the relationship between work conditions and family life, with special focus on military families. She is an author of over 140 articles and chapters. Her research has been supported by the National Institutes of Health; the Departments of Defense, Veterans Affairs, and Agriculture; state governments; and numerous private philanthropies. Dr. MacDermid Wadsworth is a fellow of the National Council on Family Relations, and a recipient of the Work Life Legacy Award from the Families and Work Institute. She has served on federal advisory committees for the National Academies of Science and the Department of Defense, and has testified in Congress on multiple occasions regarding military and veteran families. In 2016, Purdue University received the Kellogg Award from the Association of Public and Land Grant Universities and the Higher Education Civic Engagement Award from the Washington Center in recognition of the work of the Military Family Research Institute. Dr. MacDermid Wadsworth is a recipient of the Morrill Award, Purdue University's highest faculty honor, for outstanding career achievements that have had an impact on society, and in 2019 was named a "Top Ten Extraordinary Contributor" among work-family researchers worldwide.

STUDENT RESPONDERS

First Division

Eesha Deepak
College of Science

Eesha Deepak of San Jose, California, is receiving a Bachelor of Science in computer science and data science with a focus on machine intelligence.

Eesha has participated in undergraduate research with Purdue's Metskas Lab. In addition, she engaged in summer research at the University of California, Berkeley; MobilizeIT; Open Networking Foundation; and Intel Corp.

She was involved with the All-Campus & Community Chorale, Computer Science Women's Network, Hello World Hackathon and the Collaborative Robotics Lab, and served as a teaching assistant for two computer science courses.

Eesha is excited to begin her professional journey with Intel as an entry-level software engineer in Santa Clara, California.

Second Division

Kevin Boes
College of Engineering

Kevin Boes of Great Falls, Montana, is receiving a Bachelor of Science in mechanical engineering.

Kevin has been an active member of the Purdue community, serving as president of both the Interfraternity Council and Kappa Sigma Fraternity, as well as secretary and treasurer of the Barbara Cook Chapter of Purdue Mortar Board. He has served as a mentor for a mechanical engineering class, a team supervisor for Boiler Gold Rush and an educational ambassador for Purdue's Center for Advocacy, Response and Education.

Kevin worked as a Starship operations engineering intern at SpaceX in Texas and participated in research at Purdue's Maurice J. Zucrow Laboratories. In recognition of his accomplishments, he has received numerous awards and recognitions, including Purdue's Homecoming Pillars of Excellency and Purdue Engineering Student Council's Industrial Scholarship.

Following graduation, Kevin intends to pursue a PhD at Purdue as a member of Zucrow Labs.

The main gates to the campus were given to the University by the Class of 1897 in keeping with a long-standing tradition. Facing State Street and looking south to the ag campus beyond, they were wide enough to permit the bicycle and buggy traffic of their youth. But with the advent of fewer horses and more horsepower not too many years later, they were moved farther apart. The gateways were removed from their permanent location in 1956 before construction was begun on Stewart Center and now stand on the Memorial Mall near John Purdue's grave. In this photo, Heavilon Hall and the original Eliza Fowler Hall can be seen in the background.

Built in 1872 as Boarding Hall, this was the first permanent building to be erected north of State Street. When Purdue opened in September of 1874, it housed the college dining room, living quarters for new faculty and their families, and the office for Purdue's second president, Abraham C. Shortridge. Also known for a time as Art Hall, when classes in that subject were taught in some of the rooms on the first floor, it was used for the major part of its existence as the women's residence hall, Ladies Hall. It faced State Street just a few steps east of where Matthews Hall now stands. Ladies Hall was torn down in 1927—one of the first major University buildings to disappear from campus.

PURDUE HONORS COLLEGE

The Purdue Honors College provides an interdisciplinary environment for undergraduate students from across all areas of study. Graduates of the Honors College are recognized with a medallion worn at graduation ceremonies, an honors designation on their diploma, and notation on their academic record. Students complete an honors enriched curriculum and conduct a scholarly research project. Honors College graduates are noted in the commencement program by the torch beside their name. The torch is the official symbol of the Honors College, reflecting the intent to ignite students' imaginations.

The Purdue Honors College was established in 2013 with pathways to honors across majors. The Honors College was built on a rich legacy of honors programs at the college and departmental levels. Recognition of students completing honors at the departmental level are recognized via a certificate and notation.

The following students in addition to being candidates for a bachelor's degree, are also candidates for special recognition for the satisfactory completion of the requirements in the Purdue Honors College.

DISTINCTION AND HIGHEST DISTINCTION

Professional and Undergraduate Degrees

The outstanding scholastic achievement of selected professional and undergraduate degree recipients is recognized by awarding the degree "with distinction" or "with highest distinction." Eligible candidates with superior academic records who are expected to graduate in May are designated as potential candidates for this special recognition at the beginning of the spring semester and are so identified in the commencement program. The final determination of those who actually receive this recognition is made at the conclusion of the semester and is based upon the final graduation index.

A minimum of 65 credit hours included in the graduation index for the professional or baccalaureate degree and 35 credit hours included in the graduation index for the associate degree, with a minimum graduation index of 3.30 are required for a graduate to be eligible for consideration. The upper 10 percent of the May graduates in each of the various colleges or schools receive degrees "with distinction." Of the graduates who thus qualify, the upper three-tenths of the professional, baccalaureate and associate graduates receive their degrees "with highest distinction," regardless of the college or school from which they graduate. The minimum graduation indexes thus determined in May for each college or school are applied for graduation "with distinction" and "with highest distinction" for the subsequent summer session and fall semester. Recognition is evidenced by placing an appropriate seal on the diploma and entering an appropriate notation on the academic record. Graduates who are potential candidates for degrees "with highest distinction" wear special gold and black honor cords during the commencement ceremony; those who are potential candidates for degrees "with distinction" wear gold honor cords.

The main gates to the campus were given to the University by the Class of 1897 in keeping with a long-standing tradition. Facing State Street and looking south to the ag campus beyond, they were wide enough to permit the bicycle and buggy traffic of their youth. But with the advent of fewer horses and more horsepower not too many years later, they were moved farther apart. The gateways were removed from their permanent location in 1956 before construction was begun on Stewart Center and now stand on the Memorial Mall near John Purdue's grave. In this photo, Heavilon Hall and the original Eliza Fowler Hall can be seen in the background.

The faculty and candidate procession passes across the Purdue Oval at the commencement in 1903, the first year commencement exercises were held in Eliza Fowler Hall. Participants dressed in regular clothes, since the use of caps and gowns for graduation was not to be adopted by the senior class until 1922.

PURDUE STUDENT ATHLETE

Graduates wearing the student athlete medallion are recognized for their hard work and dedication in balancing their equally demanding academic and athletic commitments. At Purdue, where student-athletes are real students, taking real courses, earning honest grades, this is no small accomplishment, and we applaud their achievement.

The following students in addition to being candidates for a bachelor's degree, are also candidates for special recognition.

An 18-foot, 5,400-pound bronze statue that celebrates the lore and legend of the Purdue Boilermakers now stands next to Ross-Ade Stadium with an inscription that reads: "The year was 1891. A college known for its proud heritage of educating the sons and daughters of the working class began to dominate opponents in football. After a 44-0 thrashing of Wabash College, a headline writer provided inspiration for a most unique nickname. 'Wabash Snowed Completely Under by the Burly Boiler Makers from Purdue' chronicled a victory by the 'Herculean wearers of the black and old gold.' Never intended as a compliment, the insult appealed to the students of the day. The indomitable spirit of the boilermaker is embodied in the tireless laborer you see before you."

*Designated as a Distinguished Military Graduate

The designation of "Distinguished Military Graduate" indicates selected individuals who have demonstrated a particularly high level of achievement while earning both an academic degree and a commission in the Armed Forces of the United States. Criteria used in making the selection include demonstrated performance and leadership in course work as well as in athletics and extracurricular functions. The candidate must also maintain at least a "B" average in all course work while ranking in the upper third of his or her contemporaries for the Army or Navy, or the upper tenth for the Air Force. Commissionees so designated receive an appropriately inscribed certificate from their respective service.

This program is not an official graduation list

While every effort is made to ensure accuracy in this commencement program, printing deadlines sometimes prevent inclusions of graduates' names, or may result in the use of names of persons not completing graduation requirements. This printed program, therefore, should not be used to determine a student's academic or degree status. The University's official registry for conferral of degrees is the student's permanent academic record, kept by the Office of the Registrar, 610 Purdue Mall, West Lafayette, IN 47907-2040.
