Mr. Robison spoke about Purdue’s role in history and culture, discussed trivia and urban legends about campus, and some of Purdue’s most notable people. We learned about the founding of Purdue, how we got the “Boilermaker” name, and the origins of the famous “One Brick Higher” statement that was made in the aftermath of the 1894 Heavilon Hall fire.

Item #4 – University Officers’ Reports
VP for Human Resources - Bill Bell
- The childcare facility has officially opened with a 1/3 increase in the overall capacity.
- We discovered employees could no longer see their pay band in SAP. The issue has been fixed and everyone should be able to view that information now.
- The Board of Trustee’s recommendations for 2023 benefits were adopted. There will be no employee premium increase for the 4th year and employees that are enrolled as of November 1st will receive an appreciation rebate. An equal amount equivalent to 2 months of the average premium amount.
- Our premium rates have saved an estimated $40 million in healthcare costs due to maintaining premium returns.
- Annual employee physicals are at an all-time high of 57%. Mammograms remain relatively consistent, up to 60%, and colonoscopies have increased as well.
- The leadership team is still meeting to continue discussing COVID-19 and possibly sharing info about Monkey Pox concerns.

Item #5 – Bridge Discussion
- We received a message from a group of meal service workers that get free meals due to their positions. They often eat lunch with the custodian that takes care of the area where they work. The custodian has to buy or bring their own lunch even though they technically work in that area. The meal service workers want to get the same benefit for the custodian. Laurie will forward the bridge form to Bill Bell.
• Bridge Form – We are still working on the reimbursement request for employees that use their personal vehicles to run errands for work.
• Bridge Form - Employee workload, we are still working on the work life balance.

Item #7 – Membership/Orientation/Subcommittee Assignments
• We received 13 full applications for our second membership drive.
• We need to do orientation for these new members and for the newer members that missed it earlier this year.
• We’ve been discussing the possibility of increasing our membership numbers. We’ll need to have a final vote by the full committee. We have to do a policy change to increase the number of members and we could also add 2 ‘members at large.’
• We need to know if CSSAC members are employed Full Year vs Academic Year so we can have a plan in place for their expected committee participation.
• Please notify the Executive committee if you have to miss a meeting. Attendance is important in order to have a quorum to start meetings and also be aligned with our policy.
• Staff Appeals Board Traffic Regulations representative from CSSAC needs replacement.
  o Melissa Hay will take that position.
• Wendy Mouser has left and we’ll need to replace her on Spring Fling committee to ensure we have 2.
  o Jennifer Kawlewski will take that position.

Discussing what day of week do we want to have it, sharing it on social media, sending calendar invites to specific departments? We are also looking into possibility of a way to do something similar for remote employees.
