

## **Produce Safety Alliance Grower Training Course Information**

- Thursday, March 2, 2017  
8:30 a.m. - 5:30 p.m.
- Hendricks County 4-H Fairgrounds and Conference Complex, Danville, IN
- Purdue Extension's 2017 Indiana Small Farm Conference
- This course is partially supported by the United States Department of Agriculture and the Indiana State Department of Agriculture under Award Number 14-SCBGP-IN-0018.

### **Who Should Attend**

Fruit and vegetable growers and others interested in learning about produce safety, the Food Safety Modernization Act (FSMA) Produce Safety Rule, Good Agricultural Practices (GAPs), and co-management of natural resources and food safety. The PSA Grower Training Course is one way to satisfy the FSMA Produce Safety Rule requirement outlined in § 112.22(c) that requires *'At least one supervisor or responsible party for your farm must have successfully completed food safety training at least equivalent to that received under standardized curriculum recognized as adequate by the Food and Drug Administration.'*

### **What to Expect at the PSA Grower Training Course**

The trainers will spend approximately seven hours of instruction time covering content contained in these seven modules:

- Introduction to Produce Safety
- Worker Health, Hygiene, and Training
- Soil Amendments
- Wildlife, Domesticated Animals, and Land Use
- Agricultural Water (Part I: Production Water; Part II: Postharvest Water)
- Postharvest Handling and Sanitation
- How to Develop a Farm Food Safety Plan

In addition to learning about produce safety best practices, key parts of the FSMA Produce Safety Rule requirements are outlined within each module. There will be time for questions

---

It is the policy of the Purdue University Cooperative Extension Service that all persons have equal opportunity and access to its educational programs, services, activities, and facilities without regard to race, religion, color, sex, age, national origin or ancestry, marital status, parental status, sexual orientation, disability or status as a veteran.

Purdue University is an Affirmative Action institution. This material may be available in alternative formats.

and discussion, so participants should come prepared to share their experiences and produce safety questions.

### **Benefits of Attending the Course**

The course will provide a foundation of Good Agricultural Practices (GAPs) and co-management information, FSMA Produce Safety Rule requirements, and details on how to develop a farm food safety plan. Individuals who participate in this course are expected to gain a basic understanding of:

- Microorganisms relevant to produce safety and where they may be found on the farm
- How to identify microbial risks, practices that reduce risks, and how to begin implementing produce safety practices on the farm
- Parts of a farm food safety plan and how to begin writing one
- Requirements in the FSMA Produce Safety Rule and how to meet them.

After attending the entire course, participants will be eligible to receive a certificate from the Association of Food and Drug Officials (AFDO) that verifies they have completed the training course. To receive an AFDO certificate, a participant must be present for the entire training and submit the appropriate paperwork to their trainer at the end of the course.

### **Registration**

This PSA Grower Training course is being offered as a full-day workshop on Thursday, March 2, 2017 at the 5<sup>th</sup> Annual Indiana Small Farm Conference. You have the option to only register for this Thursday workshop, or for 2 or 3 days of the conference. Visit [www.conf.purdue.edu/INsmallfarm](http://www.conf.purdue.edu/INsmallfarm) to register. Your registration fee for this workshop includes the course fee, training manual, certificate (if the course is completed in full), and lunch/refreshments for the day.
