

WGHI INTERVIEW SERIES

ADVANCING WOMEN'S HEALTH THROUGH MEDICAL INNOVATION

OCTOBER 7, 2026 | 6:30PM EST
VIRTUAL | FREE | OPEN TO THE PUBLIC

JENNIFER KERR

President of Cook Medical Research Inc,

Jennifer is President of Cook Research Incorporated, a subsidiary of Cook Medical, where she oversees a large staff of engineers, scientists, regulatory professionals and clinical experts responsible for producing hundreds of life-changing products that combine minimally invasive medical devices, drugs, biologic materials and cellular therapies. She also serves as Cook Medical's Global Leader for Clinical Affairs and is a member of the executive leadership team. She serves on the Board of Directors of the Medical Device Manufacturers Association and chairs the Governing Committee for the National Evaluation System for Health Technology, collaborating with the FDA, industry, patient advocacy groups, and healthcare professionals to advance medical technologies. She is also a member of the External Advisory Council for Purdue University's Women's Global Health Institute. Jennifer earned bachelor's and master's degrees from Purdue University in biomedical engineering and physiology. In 2020, she received Purdue's Outstanding Alumni Award from the School of Engineering Education.

LEADING THE WAY

DAN DELAURENTIS

Executive Vice President for Research

Daniel DeLaurentis is Executive Vice President for Research (EVPR) and the Bruce Reese professor of Aeronautics and Astronautics at Purdue University. As EVPR, he is the Senior Research Officer for the University responsible for increasing the scale and impact of Purdue University's research enterprise and enabling the success of faculty-driven research by supporting cross-college collaborations.
