UTC Project Information		
Project Title	Analysis of Policies Aimed at Increasing Use of Natural Gas in the Transportation System	
University	Purdue University	
Principal Investigator	Wallace E. Tyner	
PI Contact Information	James and Lois Ackerman Professor Department of Agricultural Economics Purdue University wtyner@purdue.edu 765-494-0199	
Funding Source(s) and Amounts Provided (by each agency or organization)	\$84,371: Nextrans Center / USDOT \$84,371: Purdue University	
Total Project Cost	\$168,742	
Agency ID or Contract Number	DTRT12-G-UTC05	
Start and End Dates	1/1/2013	
Brief Description of Research Project	The major objective of this research is to evaluate a series of natural gas for transportation policy options and to compare them with existing options for electric vehicles, biofuels, CAFE standards, etc. The policy incentives that will be considered are: 1)incentives to create natural gas fueling stations, 2)subsidies for natural gas vehicles comparable to the benefits provided to the country from their use, 3)incentives for retrofitting gasoline vehicles for conversion to CNG, and 5)incentives for fleet adoption of CNG.	
Describe Implementation of Research Outcomes (or why not implemented)
