

Want to study Homeland Security?

This Summer 2012

Two Courses: Large Event Management & Planning for Homeland Security Maymester 2012 planned for the Indianapolis Motor Speedway and Continuity of Operations Management and Emergency Management Planning

ASM 59100/CNIT 58100

Offered Maymester, Large Event Management:

- ⚙ Large Event Emergency Planning
- ⚙ Large event Incident Command
- ⚙ Emergency Planning
- ⚙ Risk assessment for large events
- ⚙ Crisis management and communication
- ⚙ At Indianapolis Motor Speedway

ASM 59100/ CNIT 58100

Offered Summer-semester, Continuity of Operations:

- ⚙ Risk Assessment for Businesses
- ⚙ Continuity of Operations
- ⚙ Management of Emergencies
- ⚙ Risk assessment for large events
- ⚙ Crisis management for Businesses
- ⚙ Communicating emergency management and plans

Students will explore the characteristics of security, personal and corporate perspectives on security, asset identification and cost/benefit analysis, risk assessment and management, crisis decision making, emergency management and response infrastructures, crisis communication, business continuity, best practices, collaborative approaches, and team building. For the Maymester course, students will utilize the facilities and activities of the Indianapolis Motor Speedway and the Indy 500 to apply large event planning practices for Homeland Security. For Continuity of Operations Management, students will collaborate with local businesses to study and develop emergency and continuity of operations plans. Presentations by outside experts in the field of Homeland Security will be included.

Taught by an interdisciplinary team of faculty:

- ⚙ J. E. Dietz, Director of Purdue Homeland Security, former Director of Indiana Department of Homeland Security
- ⚙ W. E. Field, Ag & Bio Engineering
- ⚙ P. M. Aaltonen, Public Health Nursing Special Guest Lecturers / Subject Matter Experts
