

New μ CT users

1. Register for iLabs
2. Send "Request Service" through iLabs for training https://purdue.ilabsolutions.com/service_center/4049/?tab=services. Cost is \$100/session and 3 people per session.
3. Training
 - a. Radiation Safety
 - i. Complete Form A-4 (requested from Andy or REM). Email completed form to Andy Schaber for signature as the Project Director and he will forward to REM for processing and updating new user to μ CT (under Authorization Number:55MCROCT).
 - ii. Complete REM training of PPT:
 1. Look for: **Micro Computed Tomography (MCT)**
training: <https://www.purdue.edu/ehps/rem/training/training.html#M>
 - b. Instrument Training: Schedule with Andy Schaber. This training will be focused on acquisition. Analysis and reconstruction software training to be scheduled at a later date. After training is complete, Andy will assign user as trained in iLabs.
 - c. Safety training – complete with Susan McCreery (smccreer@purdue.edu). After training is complete, swipe card access will be permitted.
 - d. If user needs access to HANSEN outside business hours and users' lab does not currently have a key, request the form from Andy Schaber, complete it and hand to Kristie Dowel (HANS 121, 6-6548, kristie@purdue.edu) for physical key to BIF.
