Purdue Emergency Preparedness and Planning web site lists procedures for most emergencies and is readily available from your office or classroom computer:
http://www.purdue.edu/ehps/emergency_preparedness

Emergency Procedures Guide (EPG):
http://www.purdue.edu/emergency_preparedness/flipchart/index.html

- Fire
- Crimes Activity
- Bomb threats
- Shelter in place
- Utility failure
- Natural gas leak,
- Active Shooter (see reference for additional information)
- Hazardous Material spills/release (see references below for additional information)
- Tornado Warning (see weather policy below for additional information)
- Evacuation guidelines for people with disabilities

Active shooter training video, Shots Fired on Campus, When Lightning Strikes

Additional specific materials regarding in-classroom emergencies for laboratories that involve hazardous chemicals including mercury, biohazardous materials or radioactive materials can be found in specific program manuals located on the REM website:

http://www.purdue.edu/ehps/rem/home/guide.htm

If the emergency is significant or additional resources are necessary always call 911 for assistance.

Other useful resources:

Your Building Emergency Plan (BEP): See your building deputy or designated representative for your specific building plan. BEP's can also be found online at the Campus Emergency Preparedness Website.

- Online BEP List (Career Account Login Required)

Purdue Tornado (and other weather) Policy: http://www.purdue.edu/policies/index.html

Purdue building evacuation and shelter in place policies: The policies and procedures are located in the Building Emergency Plan for your facility. See your building deputy or designated representative for your specific building plan.

Purdue ALERT, the University emergency warning notification system, information http://www.purdue.edu/ehps/emergency_preparedness/warning-system.html

Emergency Procedures Quick Reference Poster can be enlarged for onscreen viewing. You are encouraged to post the poster in your classrooms and work areas.

Get Ready, Get Set, Go Poster (pdf) (word)

- A decision assistance tool designed for use by all campus populations in developing their situation-specific individual emergency plans
