

LEARN TO TRANSLATE RESEARCH INTO IMPACT

FALL 2023 GRADUATE COURSE

Life of a Faculty Entrepreneur:
Discovery, Development & Translation

PREPARE FOR CONTEMPORARY JOBS IN INDUSTRY OR ACADEMIA

Understand how to navigate the intellectual, financial, leadership, and management processes associated with translating research into tangible products that have an impact on society. We will cover topics such as intellectual property, investment, publishing versus patenting, conflicts of interest, personal and professional rewards, and timing.

Rarely is it possible to find a course that can satisfy so many important facets of a subject. It shows you how to transition from an academic mindset to a technology development frame of mind.

Craig Sweet | PhD Student

I liked the guest lectures from faculty entrepreneurs and discussions about industry collaborations that assisted with commercialization because I may be interested in something along those lines in the future.

Shalini Iyer | Postdoc
