

## **Laying Tracks Part 1**

### *Pre-Academic Notice meeting reflections*

Take a moment to reflect on what went well last semester. What were you good at academically? For example, did you excel at quizzes? Were you good at getting your homework done on time? Did you enjoy writing papers (and are you good at it)? Make a list of what you did well and pat yourself on the back.

What is one of your core values from EDPS 105 that you can relate to being in college at Purdue?

Why do you value a college education?

Please list any possible obligations outside of academics you have during the semester (Greek life, work, family, organization involvement, etc.)
