The 2018 Indiana Tree Farm Landowners Clinic is a program designed to provide landowners interested in managing their forests and wild lands an introduction to management practices, and resources for advice and assistance. We will have tree measuring sticks available for sale. The program is open to anyone interested in trees and wildlife.

Since 1941 the American Tree Farm System has educated and recognized the commitment of private family forestland owners demonstrated in sustainable forest stewardship. Join us to learn more about Tree Farm and how you can improve your property.

This program is offered through the cooperation of the Indiana Tree Farm Committee, the Indiana DNR Division of Forestry, the Purdue University Department of Forestry and Natural Resources and Hardwood Tree Improvement and Regeneration Center.

A registration fee of $50.00 per person or $90 per couple will be charged. Saturday lunch and breaks will be included. Children under the age of 18 may attend for free.

Please register by March 12 to avoid a $10 per person late registration fee. The Friday tour is included in the fee.

Please make checks payable to Indiana Tree Farm Committee and return to:
Bob Burke, 2896 Centennial Rd
Martinsville, IN 46151-8231
