Program Coordinators

Richard Beckort has served as the Agriculture and Natural Resources Extension Educator with the Purdue Cooperative Extension Service for close to 30 years. He earned a Bachelor’s and Master’s Degree in Commercial Horticulture from Western Kentucky University in Bowling Green, Kentucky. His areas of expertise are Home Horticulture and Commercial Vegetable Production.

David Osborne grew up in Jackson County Indiana, where he spent as much time as possible fishing and hunting the white river bottoms with his Dad. David received a Bachelor’s degree in Wildlife and Forest Management and a Master’s degree in Wildlife Science from Purdue University. He currently serves as County Extension Director in Ripley County. Dave has used his wildlife and forestry background and love of game cooking to develop a series of award winning wild game and fish preparation workshops that have been presented across the state for many years.

Don Carlson graduated from Purdue University in 1995 with a Forestry degree. The early years of his career were spent as an Indiana District Forester helping forest land owners better manage their woodland resources. In April of 2000, Don made a career change to begin managing Purdue University woodlands. He now is involved with managing 4000+ acres on 20 properties across Indiana. His extension efforts focus on workshops and training sessions related to chain saw safety and tree felling, invasive plant control, forest best management practices, and wildlife conservation.

About the Course . . .

It is the policy of the Purdue University Cooperative Extension Service, and our partners that all persons have equal opportunity and access to its educational programs, services, activities, and facilities without regard to race, religion, color, sex, age, national origin or ancestry, marital status, parental status, sexual orientation, disability or status as a veteran. Purdue University is an Affirmative Action institution.

Directions

Muscatatuck National Wildlife Refuge was established in 1966 as a refuge to provide resting and feeding areas for waterfowl during their annual migrations. More than 280 species of birds have been seen at Muscatatuck, and the refuge is recognized as a “Continently Important” bird area.

Muscatatuck National Wildlife Refuge is located at 12985 East U.S. Highway 50, Seymour, IN 47274. The entrance is located three miles east of Interstate 65 on U.S. Hwy. 50.
