

CHANGEMAKER **BOILER CHANGEMAKER**

The Boiler Changemaker Award recognizes:

TREVOR BONJOUR

Their nominator wrote:

I am pleased to nominate Trevor Bonjour for the Boiler Changemaker Award. Over this past semester, Trevor has demonstrated exceptional qualities in both his teaching and research work.

As a TA, Trevor consistently went above and beyond to accommodate students by providing additional support and meeting with them outside his lab and office hours. Trevor delivered a well-received lecture on an advanced topic, breaking it into simple, more manageable components.

Furthermore, he created instructional videos for the course, which will continue to benefit students in future iterations. The videos were well-structured and clearly explained. In addition, Trevor has shown great teamwork and leadership qualities, mentoring multiple graduate and undergraduate students in our research lab.

Overall, he is well-liked by all his students and peers, who appreciate his teaching style, engaging personality, and willingness to help.

His passion for teaching, dedication to the success of his students, and ability to work well in a team are just a few qualities that make him a remarkable educator. I see a bright future for him and am confident he will continue to inspire and motivate students.

Thank you for all you do, Trevor!
