

CHANGEMAKER **BOILER CHANGEMAKER**

The Boiler Changemaker Award recognizes:

JENNIFER ESCOBEDO

One of Jennifer's first tasks as a graduate student employee for the Purdue Latino Cultural Center was to create a community for the Avanzando through College cohort that was not relying on another or on its instructors. Not only has Jenny created opportunities for community building among those students, she has positively impacted the LCC students and staff.

She brings joy to the center while being efficient, creative in her work, and uplifting students to create a sense of belonging.

Jenny conducts research to implement programming, she welcomes and receives input from students, and implements creative, multi-layered ways of communication.

Do you know a grad student who is making big changes? Nominate them at: bit.ly/BCMAWARD
