Section I. Master's Thesis/Ph.D. Dissertation Agreement

Purdue University maintains digital copies of theses and dissertations produced by Purdue University students in the Hammer Research Repository (HammerRR). In the interest of promoting learning and discovery, Purdue University permits access to these archives.

Agreement

By depositing my thesis or dissertation with the Purdue University Graduate School, I understand that:

1. Purdue University maintains digital copies of theses and dissertations produced by Purdue University students in the Figshare (HammerRR) Research Repository. In the interest of promoting learning and discovery, Purdue University permits open access to these archives.
2. Purdue University requires that authors of theses and dissertations grant to the University the right to copy, distribute, and make theses available through Open Access outlets such as HammerRR.
3. Such permission allows the author and the University to contribute to the advancement of knowledge and research by making their works available to scholars. Research becomes more broadly disseminated and may assist authors in future endeavors.
4. Purdue University typically receives no monetary gain from the reproduction and distribution of master's theses and PhD dissertations except for recovering costs associated with such reproduction and distribution (e.g., without author's permission, master's theses generally cannot be copied, in whole or in part, for such educational purposes as inter-library loan).
5. Copyright ownership remains with the author in accordance with Purdue University Intellectual Policy I.A.1.
6. This agreement does not prohibit the author in any way from entering into a publishing contract.
7. The author retains all the exclusive rights granted to copyright holders under United States copyright law subject only to the rights granted to the University as stated below:

I grant, in perpetuity, without restriction, royalty free to Purdue University the nonexclusive right and license to reproduce, distribute, and display, in whole or in part, my master's thesis or PhD dissertation in any format now known or later developed for preservation and access in accordance with this agreement. This agreement does not represent a transfer of Copyright to Purdue University.

I understand that the University will observe any publication restrictions that I have placed on my work and will not make my thesis or dissertation available to other parties until such time as it has been released from these restrictions or I have given my prior permission to the University to allow access by others.

I represent and warrant to Purdue University that the Work is my original work and does not, to the best of my knowledge, infringe or violate any rights of others nor does the deposit violate any applicable laws. I further represent and warrant that I have the authority and/or have obtained all necessary rights to permit Purdue University to use, duplicate, and distribute, the Work and that any third-party owned content is clearly identified and acknowledged within the Work.

This agreement shall survive assignment of any and all exclusive rights provided to copyright holders in Section 106 of the United States copyright law.

Section II. Embargo

Authors may request a publication restriction as part of the ETD submission process. While such restrictions are not generally recommended by the Graduate School, there are cases where their use may be prudent (e.g., patent applications, proprietary data, article and monograph publishing, etc.).

If you are considering an embargo, discuss the matter with your major professor. If you opt for an embargo, your major professor must indicate his/her concurrence by signing on the appropriate line below.

Your embargo will commence upon delivery to HammerRR. During your embargo period, your abstract and will be available for online viewing. However, the main content of your thesis/dissertation will be withheld from viewing until the embargo period expires. Once your embargo has expired, HammerRR will then post your document online expeditiously.

Please note that Embargo is not the same as Confidentiality. Embargoes are offered via HammerRR (your nominal publisher), but the Confidentiality is a program administered by the Purdue University Graduate School. Confidentiality requires GS Form 15. You may use embargo and confidentiality separately or in tandem. If you use both, the Confidentiality period is enacted first. When it ends, the Embargo period begins.

Embargo

The embargo information on this form must match the embargo information you provide to HammerRR.
