The Annual LSAMP Research Conference was held on October 23, 2010. Students from the eight surrounding campuses competed in oral and poster presentations. Dr. Monica F. Cox, Assistant Professor in the School of Engineering Education at Purdue University was the keynote luncheon speaker. Doctoral Fellow, Dr. Ann Kimble-Hill from the Indiana University School of Medicine was the speaker at the Hors D’oeuvres Awards Reception.

LSAMP would like to THANK everyone who contributed their time, energy and expertise in making the LSAMP Indiana Program a success.

The Importance of Undergraduate Research

Thursday
November 4, 2010
6:00 –7:00 pm
Lawson Computer Science Bldg.
Room 1142

Contact:
Ms. Quincy Clark
LSAMP Graduate Assistant
(765) 496-7967

Refreshments will be served!

The LSAMP spring research program offers academic year student research, enrichment and support opportunities. The spring program is 13 weeks and carries a stipend of $500. Students collaborate with faculty mentors on a research project, attend academic workshops, and upon completion will present research via a poster presentation. Once accepted into the program, students will also be required to enroll in a 13 week, 1-credit hour course: LSAMP Professional Development Seminar (CRN 54694).

IMPORTANT DATE!!!
NOV. 12, 2010
