Explore a Major in HSCI

November 7th/ 5:00-7:00PM / Wood Commons Lounge / Hampton Hall of Civil Engineering

Join faculty, alumni, and student services advisors to explore the School of Health Sciences (HSCI). The focus will be on the lesser known programs in Occupational and Environmental Health Sciences (OEHS) and Radiological Health Sciences (RHS). Enjoy complimentary pizza and drinks, chat with current HSCI students, and learn what HSCI has to offer. You’ll have the opportunity to tour labs of faculty in Hampton Hall.

HSCI Majors

Purdue University's School of Health Sciences is committed to creating, disseminating, preserving and applying knowledge in the areas of Radiological, Occupational and Environmental Health Science through leading-edge scholarly research, teaching and engagement. The School offers nationally recognized educational programs in Radiological Health Science, Occupational Health Science, Environmental Health Science, Occupational and Environmental Toxicology, and Medical Laboratory Sciences and maintains excellent programs in pre-allied health and other medically related pre-professional programs.
