Graduate training in Human Development and Family Studies

Apply at: www.purdue.edu/hhs/hdfs/students/graduate/application_info.html

In HDFS, we study development and families in real-world contexts. The interdisciplinary research conducted by our faculty crosses the lifespan and a diverse range of topics including Culture and Diversity, Early Childhood Education and Care, Health and Well-being, Interpersonal Relations, and Military Families.

REASONS TO CONSIDER HDFS AT PURDUE

- Individual mentorship
- Faculty expertise in areas across the lifespan
- Integrated multilevel approach to human development
- Breadth and depth of research and practical experience
- Advanced methodology and statistics training
- Emphasis on the contexts surrounding development and families, including intervention programs
- Approximately $6,000,000 in grant expenditures awarded in the past year

INTERDISCIPLINARY RESEARCH OPPORTUNITIES

Combine doctoral training in HDFS with

- Certificates in Social Policy, Gerontology, Women's Studies, and Statistics
- Master of Public Health
- Dual-title PhD in Gerontology

Interdisciplinary Research Centers

- Center for Families
- Center for Research on Young People’s Health
- Center on Aging and the Life Course
- Military Family Research Institute
- Miller Child Development Laboratory School
- Purdue Autism Research Center

FINANCIAL ASSISTANCE

- Our students receive funding for their graduate studies including tuition remission and a stipend. Assistantships are typically provided for teaching and/or research.
- Outstanding and/or diverse students are eligible for a number of department and university sponsored fellowships.
