Clinical Assistant Professor Position in Occupational, Environmental, and Biomedical Health Sciences  
School of Health Sciences, Purdue University

Position Summary
The School of Health Sciences in the College of Health and Human Sciences at Purdue University invites applications for a non-tenure track Clinical Assistant Professor in the areas of Occupational and Environmental Health Sciences and Biomedical Sciences.

Responsibilities
The candidate is expected to teach undergraduate and graduate courses and make significant contributions to curricular development for programs within the School of Health Sciences. The successful candidate is expected to develop 2 new courses for the Health Science Pre-Professional program (premed, pre-physician assistant, etc.), and teach existing courses in Occupational and Environmental Health. This is a 12-month position; a full teaching load is expected in all academic sessions. Demonstration of regionally recognized scholarship in education and/or service to the unit is required for promotion.

Qualifications
Minimum qualifications are a Master’s degree in a field related to biomedical science and/or occupational and environmental health with the preferred candidate holding a doctoral degree. The teaching focus of this position also requires demonstration of a strong background in innovative educational pedagogy.

Application Procedure
Applications must include (1) cover letter, (2) curriculum vitae, (3) a teaching philosophy and statement regarding courses of interest to teach and/or develop, (4) a diversity, equity, and inclusion statement, and (5) a list of three references. Any interested candidate should apply here (internal candidates) or here (external candidates).

Purdue University’s School of Health Science is committed to advancing diversity, equity, and inclusion in all areas of faculty effort including discovery, instruction, and engagement. Candidates’ diversity, equity and inclusion statement should address past and/or potential contributions to diversity, equity, and inclusion through teaching, research and/or engagement.

About the Department
Founded in 1979, the School of Health Sciences offers academic programs in Health Science Pre-Professional, Medical Laboratory Sciences, Medical Physics, Health Physics, Toxicology, and Occupational and Environmental Health Sciences (OEHS). The Health Science Pre-Professional major is the largest with 588 students. The OEHS undergraduate and graduate programs both have ABET accreditation in industrial hygiene; and the OEHS graduate program is supported by a NIOSH training grant. The Wall Street Journal ranked Purdue University as fourth in the nation among top public universities in the United States.

Review
Review of applications will begin on February 1, 2021 and continue until the position is filled. A background check is required for employment in this position. Questions regarding the position may be sent to Dr. Ellen M. Wells, Chair of the Search Committee (wells54@purdue.edu).

Purdue University is an EOE/AA employer. All individuals, including minorities, women, individuals with disabilities, and veterans are encouraged to apply.
