The IN-MaC Summer Interns Program offers college students from Purdue University, Ivy Tech Community College and Vincennes University opportunities for paid internships in various departments throughout manufacturing organizations across the State of Indiana.

An internship in manufacturing provides an excellent opportunity for college students to apply their academic skills in a professional and dynamic environment. Interns are exposed to a corporate environment, build business acumen and gain real-world experience in their field of study.

In-MaC is looking for diverse, talented students who want to grow and challenge what is possible with a career in manufacturing.

Internship opportunities are paid, 9–11 week program over the summer (May–August, 2018), which is open to enrolled college students for the 2018-2019 academic school year. Must be a current sophomore or higher.

• Must actively be enrolled to pursue an Associate’s or Bachelor’s Degree; must be a sophomore or hire
• Attention to detail and strong project management skills are a plus
• Candidates chosen for this position are highly motivated and eager to learn
• Proficient computer application skills
• Valid driver’s license and driving record
• Eligible to work in the U.S. without work authorization sponsorship

If you are interested in participating or have any questions, please contact Sascha Harrell at smharrel@purdue.edu.
