

RESEARCH AIDE PROGRAM

POSITION AVAILABLE

FOCUS	Deployed Safety Services
DIVISION	Health Safety and Environment
TIMING	Summer (minimum 10 weeks)

Argonne National Laboratory, one of the U.S. Department of Energy's (DOE's) major research centers, is pleased to announce opportunities for college and university graduate and undergraduate students to participate in the Laboratory's ongoing programs.

The Deployed Safety Services Team (DSS) provides day-to-day ESH related support and services to the research and development organizations across Argonne and helps provide a standardization of safety practices across the laboratory.

ABOUT THIS INTERNSHIP

Interns in DSS will develop skills in anticipating, recognizing, evaluating, and managing (including communicating) environmental, safety, and health hazards and risks by 1) working within the work planning and control system in Argonne (DSS mentoring will be a starting point), 2) shadowing and collaborating with various safety generalists/specialists deployed across the site to perform facility safety inspections and work planning and control reviews, and 3) independently or with minimum support, perform the tasks above and generate a report or work planning and control document.

Students interested in this position may need additional skill sets:

- Fundamental knowledge of Environmental, Safety and Health (ESH) practices.
- Ability to listen to and effectively communicate with various researchers and scientists from various scientific disciplines.
- Desire to work with and support a broad range of scientific disciplines.
- Proven oral and written skills to effectively communicate problems and solutions to workers and management.

- Ability to develop interpersonal relationships with various researchers and scientists.
- Openness to exploring work across all scientific disciplines and other areas that ESH supports.

STUDENT REQUIREMENTS

Students seeking to apply to any of the ESH internship positions should have the following qualifications:

- Currently enrolled in occupational safety and health or radiological protection related program (ABET accredited preferred) full time and seeking a degree in an occupational safety and health or radiological protection field. Master students are eligible to apply.
- Completed one year of schooling by the time the internship starts and maintain a grade point average of 3.0 on a 4.0 scale.

COMPENSATION

The salary range is based on academic rank, academic discipline, and prior experience.

HOURS

8:30 a.m. – 5:00 p.m.
Monday through Friday
Actual schedule will be determined upon hiring.

TO APPLY

Please send cover letter and resume including the position you are applying for to Lisa Reed at lisareed@anl.gov.

In addition, please submit:

A completed application and two letters of recommendation to https://apps.anl.gov/register/ra_new.

Additionally, students seeking this opportunity should demonstrate in their application or interview:

- A desire to learn about the broad disciplines of occupational safety and health such as occupational medicine, safety training, and safety information system, etc.
- A desire to participate in a dynamic and diverse work environment
- Their ability to be highly motivated, self-starting and seeking a future career in a safety profession.
- Ability to assist in difficult situations and keep composure and confidence through a combination of desk and fieldwork.
- Excellent written and oral communication skills.
- Attention to detail and willingness to participate in documenting of reviews, walkthroughs and meetings.
