Arconic’s (formerly Alcoa) Dover, NJ facility has an immediate opening for an Environmental, Health and Safety (EHS) Engineer – Industrial Hygiene Focus. Our passionate commitment to EHS provides the successful candidate with an excellent environment in which to work and the leadership commitment and support to deliver results. This position is a key member of the location’s EHS leadership team and is highly visible position in the plant and the Arconic Power and Propulsion (APP) Business Unit.

APP is a world leader in the investment casting of super alloys, aluminum and titanium products and is a leading supplier of structural components for the aerospace, automotive, commercial transportation, and industrial gas turbine markets. The Dover location is increasing its labor force and implementing significant capital investment to accommodate customer demand and the rapid growth in the aerospace jet engine market. This position provides an opportunity to join a growing organization.

**Job Responsibilities**

- Lead all aspects of the facility’s health and industrial hygiene programs including the development and execution of IH sampling plans, the administration of IH databases and employee exposure records, oversight of ergonomics, respiratory protection, hearing conservation, hazard communication, and radiation protection programs.
- Support facility expansion activities.
- Assist in the development and execution of strategic and tactical EHS plans for the reduction of employee unacceptable chemical and noise exposures.
- Serve as a resource for the location’s industrial ventilation leader to ensure IH exposure levels are maintained.
- Work closely with and support the onsite medical services department.
- Coach and counsel location leaders to assist them in the execution of their EHS accountabilities.

**Basic Qualifications**

- Bachelor’s Degree from an accredited institution
- Minimum 3 years of EHS experience in a manufacturing environment

**Preferred Qualifications**

- Experience with industrial hygiene in a manufacturing setting.
- Demonstrated professional with passion for change and relentless focus on execution.
- Critical skills include: Communication, time management, attention to detail, analytical, initiative, problem solving, customer focus, collaboration, ownership and commitment, drive for change, and tenacity.
- Ability to work with a variety of people in a fast-paced environment.

This position is subject to the International Traffic in Arms Regulations (ITAR) which requires U.S. person status. ITAR defines U.S. person as an U.S. Citizen, U.S. Permanent Resident (i.e. ‘Green Card Holder’). Employees must be legally authorized to work in the United States. Verification of employment eligibility will be required at the time of hire. Visa sponsorship is not available for this position.

Other Details: Relocation assistance is provided. Expected travel is less than 5%.
