EHS Engineer—Waco, TX
Arconic Fastening Systems and Rings

Arconic’s (formerly Alcoa) has an immediate opening for an EHS Engineer. The position resides at our Waco facility in Texas. The position will function in all disciplines of EHS but will have a primary focus on Safety. Our passionate commitment to EHS provides the successful candidate with an excellent environment in which to work and the leadership commitment and support to deliver results. This position is a key member of the EHS leadership team and is highly visible position in the Arconic Fastening Systems and Rings (AFSR) Business Unit.

Arconic Fastening Systems and Rings (AFSR) serves the global aerospace, automotive, and commercial transportation markets with the most specialized engineering, highest quality, and the greatest breadth and depth of fastening system solutions and seamless rolled rings in our industry. Headquartered in Torrance, CA; AFSR employs 7,900 people in 13 countries at 39 locations. AFSR is a business unit of Arconic. (NYSE:ARNC)

Essential Job Functions:
- Provide specialized EHS expertise and assist in developing location knowledge of EHS regulations and corporate standards
- Assist in defining, obtaining, and coordinating necessary EHS reports, permits, communications and EHS self-assessments (ASATs) for the location
- Develop, maintain and modify site specific Environmental compliance programs
- Ensure regulatory reporting is completed for applicable regulatory agencies
- Coordinate EHS incident investigations so that they are conducted in a thorough and timely manner and assist in the maintenance of the Corporate incident database
- Strong written and verbal communication skills; able to present training material in a clear and understandable manner

Minimum Qualifications:
- Bachelor’s Degree Bachelor’s Degree in Occupational Health & Safety, Environmental, Safety Science, Biology, Chemistry, Environmental Engineering, or Environmental Science from an accredited institution
- 3 or more years of experience with EHS programs and activities
- Employees must be legally authorized to work in the United States. Verification of employment eligibility will be required at the time of hire. Visa sponsorship is not available for this position.
- This position is subject to the International Traffic in Arms Regulations (ITAR) which requires U.S. person status. ITAR defines U.S. person as an U.S. Citizen, U.S. Permanent Resident (i.e. ‘Green Card Holder’), Political Asylee, or Refugee.

Preferred Qualifications:
- EHS experience in a Manufacturing environment (internships will be considered).
