

Plan of Study

To fulfill CAMPEP requirements, each student must take 23 CR of didactic coursework and 6 CR of independent research. The Purdue MP program requires *a minimum* an additional 9 CR of additional coursework defined as selectives. The list of selectives can be found at the bottom of this document and on our website, and includes advanced courses, clinical internships, and MS thesis research credit.

Upon entry into the program, students are expected to have completed the equivalent of two semesters of anatomy and physiology. Students that have not completed prior course work in anatomy and physiology are required to complete one of the following options: BIOL 301 and 302 or BIOL 203 and 204 or equivalent.

The following plan of study is for incoming students with either a major or minor in Physics. For those students who do not have a physics minor, an alternative plan of study that includes the necessary physics courses.

The *suggested* plan of study includes 23 CR didactic coursework (CAMPEP required), 6 CR of clinical internship coursework, and additional MS Thesis research.

FIRST YEAR

Fall Semester

- _____ (4) BIOL 203 - Human Anatomy & Physiology I
- _____ (3) HSCI 312 - Radiation Science Fundamentals
- _____ (2) HSCI 313 - Principles of Radiation Detection and Measurement
- _____ (3) HSCI 526 - Principles of Health Physics and Dosimetry
- _____ (1) HSCI 696 - Seminar in Health Sciences (initial student seminar)

Spring Semester

- _____ (4) BIOL 204 - Human Anatomy & Physiology II
- _____ (2) HSCI 514 - Radiation Instrumentation Laboratory
- _____ (3) HSCI 540 - Radiation Biology
- _____ (3) HSCI 570 - Introduction to Medical Diagnostic Imaging
or
HSCI 572 - Radiation Oncology Physics
- _____ (1) GRAD 612 - Responsible Conduct in Research
- _____ (0) HSCI 696 - Seminar in Health Sciences (attending)

Summer Semester

- _____ (3) HSCI 690 - Radiation Therapy (RT) Clinical Rotation I (clinical selective)
or
HSCI 698 - MS Research Thesis
- _____ (3) HSCI 698 - MS Research Thesis

SECOND YEAR

Fall Semester

- _____ (2) HSCI 574 - Medical Health Physics
- _____ (3) HSCI 690 – Radiation Therapy Physics Competencies II (clinical selective)
or
HSCI 672 – MRI QA Internship (clinical selective)

Plan of Study

- _____ or
- _____ HSCI 698 - MS Research Thesis
- _____ (0) HSCI 696 - Seminar in Health Sciences (attending)
- _____ (3-6) Medical Physics Selectives

Spring Semester

- _____ (3) HSCI 572 - Radiation Oncology Physics
- _____ or
- _____ (3) HSCI 570 - Introduction to Medical Diagnostic Imaging
- _____ (3) HSCI 690 - Radiation Therapy Physics Competencies II (clinical selective)
- _____ or
- _____ HSCI 674 Radiological Imaging Physics Internship (clinical selective)
- _____ or
- _____ (3-6) HSCI 698 - MS Research Thesis
- _____ (3-6) Medical Physics Selectives

Notes:

- Students are required to enroll in HSCI 696 Seminar in Health Sciences spring and fall semesters while in the graduate program. However, only 1 credit hour applies towards the completion of the required coursework.

Selective Courses:

- Physics Minor (if necessary)
 - PHYS 340 - Modern Physics Lab (required)
 - PHYS 342 - Modern Physics (required)
 - PHYS 330 - Intermediate Electricity and Magnetism (recommended)
 - PHYS 322 - Optics
 - PHYS 310 - Intermediate Mechanics
 - PHYS 360 - Quantum Mechanics
 - PHYS 400 or 500 level courses
- Advanced Coursework
 - HSCI 305 - Basics In Oncology
 - HSCI 534 - Applied Health Physics
 - HSCI 516 - Molecular Imaging in Nuclear Medicine
 - BME 595 - Theory of MRI
 - HSCI 590 - Data Acquisition and Image Reconstruction in MRI
 - HSCI 590 - Magnetic Resonance Spectroscopy
 - STAT 511 - Statistical Methods
 - STAT 512 - Applied Regression Analysis
- Clinical Internships
 - HSCI 690 - Radiation Therapy Physics Competencies Intern I
 - HSCI 690 - Radiation Therapy Physics Competencies Intern II
 - HSCI 672 - MRI QA Internship
 - HSCI 674 - Diagnostic Imaging Physics Internship
- Research
 - HSCI 590 - Independent Research
 - HSCI 698* - MS Research Thesis
 - HSCI 699 - PhD Research Thesis

* Students performing an MS Thesis, 6-CR of HSCI 590 is replaced by HSCI 698.
