COLLEGE OF HEALTH AND HUMAN SCIENCES

home to future HEALTH PROFESSIONALS, EDUCATORS, AND BUSINESS LEADERS.
Whether through business, education or health innovations, students in Purdue University's College of Health and Human Sciences (HHS) work to improve people's lives. It's just what we do.

We're home to **FUTURE HEALTH PROFESSIONALS, EDUCATORS, AND BUSINESS LEADERS.**

We discover healthier ways to eat, exercise, manage finances, and navigate relationships. Find better ways to treat, prevent, and diagnose cancer. Work to improve the environment as well as the safety of employees. Refine business practices and enhance the consumer experience. Uncover new ways to improve memory and prevent diseases. Reach out to inform the world about health and well-being.

We do all this and so much more. We're HHS, and we **MAKE LIVES BETTER.**
WE HAVE A LOT TO OFFER!

**HIGHEST 4 YEAR GRADUATION RATE ON CAMPUS**

**298 UNIQUE EMPLOYERS RECRUITED HHS STUDENTS**

**3rd LARGEST COLLEGE AT PURDUE**

**25 MAJORS FOCUSED IN:**

**40 STUDENT ORGANIZATIONS SPECIFIC TO HHS MAJORS**

**30 STUDY ABROAD PROGRAMS SPECIFIC TO HHS MAJORS**

**BUSINESS**

**EDUCATION**

**HEALTHCARE**

**BEHAVIORAL/SOCIAL SCIENCES**
We are focused on and dedicated to improving the lives of people through academic programs and research dedicated to informing people’s behavioral choices, improving their health, and enhancing their quality of life. Throughout our nine academic units, we tackle the most pressing issues encountered across the life span.

**CONSUMER SCIENCE***

Every day, people interact with businesses, products, and brands; they are faced with financial challenges and opportunities. Majors in the Department of Consumer Science prepare you to enhance consumer experiences, help individuals and families establish financial well-being, and meet the needs of businesses in a global economy. [www.purdue.edu/hhs/csr](http://www.purdue.edu/hhs/csr)

**MAJORS:** Financial Counseling and Planning; Retail Management; Selling and Sales Management

**HEALTH AND KINESIOLOGY***

Heart disease, diabetes, and cancer are among the diseases that can be prevented and treated through proper exercise and healthy habits. Majors in the Department of Health and Kinesiology prepare you to make a difference in the world of health and physical activity. You could improve lives. Educate the public on health and safety issues. Help people move more, move better. [www.purdue.edu/hhs/hk](http://www.purdue.edu/hhs/hk)

**MAJORS:** Athletic Training**; Kinesiology; Public Health

**HEALTH SCIENCES***

Protect the environment and human health. Aid physicians in the diagnosis and treatment of diseases. Evaluate and control industrial and environmental hazards. Prepare for professional school. Majors in Purdue’s School of Health Sciences prepare you for a career in healthcare and industry. [www.purdue.edu/hhs/hsci](http://www.purdue.edu/hhs/hsci)

**MAJORS:** Environmental Health Sciences; Medical Laboratory Sciences; Occupational Health Science; Health Sciences Pre-Professional; Radiological Health Sciences

**HOSPITALITY AND TOURISM MANAGEMENT***

Just like products and brands, businesses and services can have a major impact on people’s daily lives. Our School of Hospitality and Tourism Management’s top-ranked program features hands-on learning from faculty who have worked in the industry, preparing you to successfully manage and lead in business. *Concentrations are available. Please visit the website for more information.

**Final admit year is fall 2019**
HUMAN DEVELOPMENT AND FAMILY STUDIES*

Help. Teach. Serve. Understand. Students in the Department of Human Development and Family Studies are prepared to make a positive impact on the lives of individuals and families. You could help young children get off to a good start in life, provide support to families during difficult times, and enable senior citizens to make the most of life. www.purdue.edu/hhs/hdfs

MAJORS: Developmental and Family Science; Early Childhood Education and Exceptional Needs; Family and Consumer Sciences Education; Human Services

NURSING

From front-line nursing to shaping health care policy, Purdue nurses are leaders who promote efficient change in their organizations. Undergraduate education prepares nurses to work in a variety of settings, from emergency departments to neonatal intensive care units to community health clinics. www.purdue.edu/hhs/nur

NUTRITION SCIENCE

Understand the importance of diet in treating and preventing diseases and in growth and development. Majors in the Department of Nutrition Science explore the relationship between the human body, nutrition, and health. With a nutrition science degree, you can pursue a career in healthcare, business, government, pharmaceutics, or education. www.purdue.edu/hhs/nutr

MAJORS: Foods and Nutrition in Business; Nutrition and Dietetics; Nutrition and Dietetics/Nutrition, Fitness, and Health (dual major); Nutrition, Fitness, and Health; Nutrition Science

PSYCHOLOGICAL SCIENCES

Psychological Sciences explores behavior broadly, from the fundamental brain processes involved in thinking, learning, and remembering; to the ways people function in groups; to methods that help improve lives. Students develop skills and knowledge they can apply to a wide variety of careers and industries or that can be used to pursue advanced degrees to become a psychologist or counselor. www.purdue.edu/hhs/psy

MAJORS: Brain and Behavioral Sciences; Psychological Sciences

SPEECH, LANGUAGE, AND HEARING SCIENCES

Communication shapes how we understand and interact with the world around us. Studying in the Department of Speech, Language, and Hearing Sciences will allow you to explore and understand all aspects of communication — including speech, language, and hearing, as well as essential functions of swallowing and balance. Graduates enjoy successful careers in healthcare, academics, public health, research, and much more. www.purdue.edu/hhs/slhs
LEARNING BY DOING

All HHS majors offer an opportunity for hands-on learning, such as an internship, clinical experience, or a co-op, allowing you to gain valuable, real-world experience before you graduate. Undergraduate research offers students the chance to work on faculty-mentored research projects.

LEARNING COMMUNITIES

Learning communities are a great way for first-year students to make friends and learn how to navigate Purdue. Research has shown that students who participate in a learning community earn higher grades, make friends faster, and graduate at higher and faster rates than students who don't participate. Learning communities in the College of Health and Human Sciences focus on improving health and quality of life.

STUDENT AND CAREER SERVICES

Your academic advisor will help you explore personal, academic, and career goals including questions concerning your major, academic programs, graduation requirements, and University regulations. Additionally, you will discuss registration and course selection for each semester with your advisor.

Likewise, HHS offers students valuable career-related resources, including free events that explore career paths for HHS majors, teach valuable skills for internship and job searches, and inform students how to plan for graduate/professional school. Some HHS academic units, as well as the University, also host career fairs to which all HHS students are invited to attend.
HOW TO APPLY.

Fill out your Common or Coalition Application and make sure to complete these important steps:

APPLICATION CHECK LIST

☐ The application itself
☐ Purdue-specific questions from the application
☐ Self-reported high school grades
☐ Self-reported ACT or SAT test scores
☐ The application fee (or qualified fee waiver)

Your application is complete when all of the above items are received.

IMPORTANT NOTICE: The completed application should be submitted by the priority action deadline of November 1 for full consideration.

November 1 is the Early Action admission application deadline for beginning college students (future freshmen) applying for fall. It’s also the deadline to be considered for Purdue’s full range of scholarships and the Honors College. In addition, it’s the priority application deadline for the School of Nursing. Students who complete their application by the Early Action deadline will have a decision on January 15.

For more information about admissions requirements and how to apply, or to schedule a campus visit, go to ADMISSIONS.PURDUE.EDU.
