The Position
The Department of Nutrition Science in the College of Health and Human Sciences at Purdue University invites applications for a tenured/tenure-track faculty position at the Assistant or Associate Professor level.

The successful candidate will be expected to have a research and publication agenda, a commitment to university service and public outreach, to work with the Director of the Didactic Program in Dietetics to reinforce the role of evidence based nutrition guidelines, and to teach. The successful candidate’s research expertise, which can span the spectrum of basic to applied sciences, will complement and strengthen core interests of faculty in the Department.

The Department of Nutrition Science at Purdue University
The Department of Nutrition Science, which maintains a strong research portfolio, is part of the College of Health and Human Sciences at Purdue University. The Department of Nutrition Science houses the campus Clinical Research Center, with a Diet Assessment Center. The Department has a strong interest in promoting interdisciplinary research and leadership across and beyond the campus. Opportunities include the NIH-supported Indiana Clinical and Translational Sciences Institute, the Ingestive Behavior Research Center, NCI-designated Purdue Center for Cancer Research, Purdue Institute of Integrative Neuroscience, Purdue Institute for Inflammation, Immunology and Infectious Disease, Women’s Global Health Institute, Center on Aging and the Life Course, and a strong state wide Cooperative Extension Program.

The Department of Nutrition Science provides a competitive start-up package, laboratory space, excellent core facilities, and extensive opportunities for collaborative research, and participation in undergraduate and graduate training programs and faculty development programs. Salary is competitive, commensurate with background and experience. An attractive benefits package is available.

Requirements
Applicants should have completed a PhD in Nutrition Science or closely related field and hold the RDN credential. Applicants at the Assistant Professor level should have at least 2 years of postdoctoral experience and demonstrate potential for excellence in research and teaching. Applicants at the Associate Professor level should have demonstrated success in research (as evidenced by publication record and extramural funding), in teaching, and in service to the profession. All applicants should show a commitment to contributing to inclusivity.

Application Instructions
Confidential nominations and applications will be accepted until the position is filled. Review of applications will begin December 1, 2021. Applications should include a letter of interest indicating relevant experience and qualifications, a statement describing future research plans, and funding record, and a full curriculum vitae. Purdue University’s Department of Nutrition Science is committed to advancing diversity in all areas of faculty
effort, including scholarship, instruction, and engagement. Candidates should address at least one of these in a separate Diversity and Inclusion Statement, indicating their past experiences, current interests or activities, and/or future goals to promote a climate that values diversity and inclusion. Applications should be submitted at https://career8.successfactors.com/sfcareer/jobreqcareer?jobId=16256&company=purdue univ. Professional references and other supplemental application materials will be requested later in the recruitment process. Nominations and confidential questions regarding the position should be submitted to the search chair Dr. Dorothy Teegarden, Professor, nutrsearch@purdue.edu. A background check is required for employment in this position.

Purdue University is an EOE/AA employer. All individuals, including minorities, women, individuals with disabilities, and veterans are encouraged to apply.
