Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:

Students who enter the program with a Master's degree may petition to have previous courses counted in place of required program courses; the syllabi from these courses are evaluated by the program faculty who decide upon equivalency. If the student previously completed an empirical Master's thesis there is no requirement to complete another, but the student must still complete the first year project. In general, entering with a Master's degree reduces the time in the program by a year.
