PSY 390 Research Opportunity – Spring 2020

Faculty member or graduate student
Chris Agnew, PhD, Professor, Social Psychology
Ledina Imami, PhD, Postdoctoral researcher, Social Psychology

Description of research area
Our research examines the influence of timing in romantic relationships. For example, we investigate how the subjective feeling that the time is “right” for one to be involved in a relationship is linked to relationship quality and stability. Our current projects explore the factors that make the timing feel “right”.

Description of undergraduate participation
Research assistants may be involved in:
- Interacting with participants during laboratory sessions
- Data quality control and analyzing data
- Conducting literature reviews on specific topics of interest

Research setting
Most work will be completed in the Psychological Sciences building. Research assistants are expected to spend most of their working hours in the lab.

Number of assistants needed
We are recruiting 2-3 people. Research assistants are expected to work an average of 5-8 hours per week.

Additional comments
Please answer the questions listed on the next page and e-mail your responses along with an unofficial transcript to Ledina Imami (limami@purdue.edu). We require a 3.0 GPA minimum. Applicants will be interviewed in November.
Your name:

E-mail address:

Expected term of graduation (e.g. Spring 2020):

Psychology major GPA:

Which days/times are you anticipating being available during Spring 2020 (i.e., this coming Spring)?

Please mark with an “A” those times you would be available to be in the lab.
