

PSY 390 Research Opportunity – Spring 2022

Faculty member or graduate student

Dr. Brandon Keehn

[Attention and Neurodevelopmental Disorders \(AtteND\) Lab](#)

Description of research area

The primary focus of the [AtteND Lab](#) is to investigate attentional strengths and weaknesses in individuals with autism spectrum disorder (ASD). Our lab uses a variety of tools to study attention in ASD, including behavioral, eye tracking, and neuroimaging methods.

Description of undergraduate participation

Students will participate in all aspects of research, including data collection, processing, and analysis.

Research setting

The *AtteND* Lab is located on the third floor of Lyles-Porter Hall.

Number of assistants needed

1-3 students

Contact information

If you are interested in joining our lab, please complete [this form](#) and email it to bkeehn@purdue.edu

Additional comments

Preference for students who are interested in enrolling in 2-3 credit hours for a minimum of two semesters.
