We are looking for motivated undergraduate research assistants for Fall 2019 to engage in research activities focused on young children’s learning of reading and mathematics.

We are particularly interested in recruiting students who are bilingual (Spanish/English) as one of our current studies is an intervention project with preschool children who are dual language learners.

- Join Dr. Purpura’s lab for research credit in HDFS or PSYC 390
- Responsibilities include:
  - Conducting assessments with preschool children
  - Engaging with parents
  - Coding video and audio sessions
  - Data management
  - Attending group meetings
- Qualifications
  - GPA of 3.0 of greater
  - Dependability and initiative
  - Experience working with young children
  - Ability to pass a background check
  - Spanish language proficiency preferred, but not required

- To apply, please send an email to Mimah King at kingy@purdue.edu (and cc Dr. David Purpura at purpura@purdue.edu). In the email, you should include a copy of your unofficial transcripts, resume, and reason for applying.
