Faculty member or graduate student

Richard Schweickert

Description of research area

Dream research

Description of undergraduate participation

The research assistant will help prepare dream reports for analysis. They will then be taught to use word count software and will help use it to carry out word count analysis of dream reports.

Research setting

Flexible. Research can be done at home using the research assistant’s own computer, or in a lab in the Department of Psychological Sciences.

Number of assistants needed

Two.
