Faculty member & graduate student

Dr. Ximena Arriaga (faculty member) and Dr. Lucy Hunt (Post-doctoral Fellow)

Description of research area

The research in this lab examines romantic relationships: what makes them work and how they affect each person. Specific topics include interpersonal and attachment security, managing aggressive relationships, and regulating doubt and uncertainty.

Description of undergraduate participation

Summer activities will occur during the first four-week summer module spanning the month of May through the first week of June. Research assistants primarily will be involved in running a study with couples. They also will meet to discuss, read, present articles, and to discuss careers in research.

Research Setting

Purdue campus, and possibly community areas.

Contact Information

For more information contact Dr. Arriaga for an application, Arriaga@purdue.edu.

Additional Information

Students interested in research careers are encouraged to apply. Interested students will be screened through the application process. Special consideration will be given to students who possess strong social skills, sophomores, and/or students with a GPA of 3.0 or higher.
