PSY 390 Research Opportunity – Spring 2019

Faculty member or graduate student: Carolyn Jagacinski, Melissa Keith

Description of research area
Our research is in the general areas of creativity and achievement motivation. We investigate how individual difference and situational factors influence creativity as well as task performance and attitudes.

Description of undergraduate participation
Our research assistants help us to set up experiments and collect data. Our research assistants also help us with coding the data. Other tasks may arise depending on our projects for a given semester. We typically run studies that involve PSY 120 students.

Research setting
Most of our research is conducted in the lab. Sometimes we also conduct surveys.

Number of assistants needed 4

Contact information

Additional comments
We prefer students who have completed PSY 120 and PSY 201 with a grade of B or better.
