PSY 390 Research Opportunity – Fall 2019

Faculty member or graduate student

Faculty: Louis Tay
Graduate Student: Louis Hickman

Description of research area
- Issues related to personality and soft skill measurement in workplace personnel selection

Description of undergraduate participation
At least two different positions are available for students: in one, students will help with in-lab data collection. In a second role, student will provide personality and soft skill ratings for research participants who have recorded their responses to mock job interviews. Additionally, there may be an opportunity for a junior or senior student to assist with other aspects of research, including data cleaning, analysis, literature review, and other aspects of the research process.

Research setting
- Data collection (i.e., running participants through research study in the lab)
- Providing personality and soft skill ratings for research participant in mock job interviews (online)

Number of assistants needed
2-4

Contact information
Please contact Louis Hickman at lchickma@purdue.edu if you have any questions or would like more information.

Additional comments
- Minimum GPA required: 3
- Major in Psychology or related fields
- Although not a requirement, preference is given to students who have taken research methods and PSY 272: Introduction to IO Psychology
- For the position providing personality ratings, preference is given to students with a background and/or interest in personality
