ADVANCE YOUR HEALTHCARE CAREER WITH PURDUE’S 100% ONLINE MASTER OF HEALTH ADMINISTRATION.

Taught by experienced and practice-based faculty, this degree covers a range of crucial health administration skills, including methods and tools to ensure cost-effective quality care and patient safety. Students explore current health administration, health policy and public health concerns essential to the management of complex healthcare organizations. Coursework prepares learners to handle the real-world issues that healthcare managers face with robust and agile management and business skills for operations, finance, marketing, quality assurance, patient care, employee satisfaction and more. The curriculum includes a capstone course enabling students to address a real healthcare problem.

The U.S. healthcare system was already transforming from a sick-care system to one focused on population health prior to when the COVID-19 pandemic hit on our country. As our country grapples with the aftermath of the pandemic and continues this population health transformation; the need for skilled health administrators is great. Purdue is uniquely positioned to provide the needed skills in data-driven delivery and complex organization management and operation.

Cody Mullen, Ph.D.
Clinical Associate Professor
Founding Director, Master of Health Administration Program

PROSPECTIVE STUDENTS
This program is intended for early and mid-career professionals looking to pursue administrator careers in health facilities. A healthcare background is preferred but not required.

PROGRAM AT A GLANCE
13 COURSES | 40 CREDITS | 6 SEMESTERS

TUITION PER CREDIT HOUR
$750 IN-STATE | $850 OUT OF STATE

EVERY GIANT LEAP STARTS WITH ONE SMALL STEP
WHAT YOU WILL LEARN

- Identify the main components and issues of the organization, financing and delivery of health services and health systems in the United States.

- Demonstrate analytical and systems thinking to identify obstacles and opportunities in organizational processes and design.

- Demonstrate leadership skills by supporting individuals and teams through coaching and mentoring to improve human capital.

- Develop financial roadmaps by interpreting and communicating financial and accounting information, developing and evaluating program budgets, and strategically investing in long-term improvements.

GRADUATE CERTIFICATES

Students who want to specialize in a healthcare administration topic can opt to earn a healthcare administration graduate certificate in one of the following areas. These nine-credit certificates can be counted toward the master’s and be earned in as little as nine months.

HEALTHCARE LEADERSHIP
Learn to navigate shifting government regulations and new technology while evaluating market trends and the changing healthcare landscape. Coursework covers the best practices of economics, marketing, management and strategy for organizational success and optimal performance.

HEALTHCARE OPERATIONS
Manage the business side of healthcare with a certificate that empowers you for success in healthcare-specific finance and business. Learn about everything from accounting practices to capital infrastructure through a healthcare lens.

HEALTHCARE QUALITY IMPROVEMENT
Elevate the day-to-day functioning of a healthcare system. Learn to evaluate and implement changes in processes, improve procedures, elevate overall patient care and impact staff satisfaction through robust process improvement techniques.
