Global Engagement:

2014 Invited to Zagreb, Croatia to present a 6 hour workshop on pediatric audiology to audiologists from Croatia and 90 minute presentation to students at the University of Zagreb

2011-2013 Zambia, Africa: Study Abroad-Service Learning Program
“Zambia, Africa: Audiology Needs and Service Delivery: An International Perspective”

Received a Study Abroad International Learning (SAIL) grant to develop a program in Zambia, Africa. This was the first study abroad program in the Department of Speech, Language and Hearing Sciences. The goals of the program:

- 1) Educate students about the profession of Audiology in a developing country and challenge them to think critically to solve problems
- 2) Expose students to the differences in patient population, needs, and service delivery systems to raise their awareness of global issues in hearing health care
- 3) Create tomorrow’s global leaders, who will be more aware of global needs and be inspired to continue giving back to the community at large as they continue their careers
