

Experience and learn about the culture, customs, health care and speech and hearing services in India, a bustling nation of > 1.3 billion people. The second most populous nation in the world which has almost 1/5 of the world's population, India is an amalgam of modernization and rural life, wealth and poverty; often juxtaposed next to each other. With 23 recognized languages, many more dialects, and 29 states each with their own culture, traditions, and food, it is an intense cultural learning environment. It is also home to the Taj Mahal-one of the wonders of the world.

• Learning opportunities as part of the course:

- Interactions with speech and hearing students from academic institutions in India
- Clinical observations at speech and hearing clinics
- Interactions with and provision of hearing services to individuals in rural areas
- Provision of in-service trainings
- Inter-professional collaborations with Indian health-care professionals
- Variety of cultural excursions
