

**Let's see what Purdue Master Gardeners
have to say about the program...**

" Learning about my leadership style and how it works in conjunction with other leadership styles has been invaluable. I've used much of what I learned serving on various boards and committees in the community."

— BJ Masa, Hamilton County

" I gained skills to help me in my leadership role, not only in Master Gardeners, but also at work. I learned how to handle conflict situations. We're all different, with our own ideas. This class helped me understand how to overcome differences and work together."

— Janet Poore, Madison County

" I've used aspects of the training at work. It's helped me better understand and relate to my co-workers and students, giving me a better understanding of how other people value different things in life, how they may react to something I might say, and how to defuse a difficult situation."

— Dan Wilson, Madison County
