Surgery Locations

OrthoIndy Hospital focuses on bone, joint, spine and muscle care and complex surgical procedures including total joint (hip and knee) replacements and spinal operations. Our philosophy is a physician-owned hospital model where patients experience superior service, safety and patient satisfaction because physicians are involved in every aspect of your care.

Two of our facilities, OrthoIndy Hospital Northwest and OrthoIndy Hospital Greenwood, provide outpatient care and inpatient care for patients undergoing more invasive procedures, such as disc replacement, spinal fusion or total joint replacement. We have two additional facilities, OrthoIndy Hospital Brownsburg and OrthoIndy Hospital Westfield, for outpatient procedures requiring stays of 23 hours or less.
