

# A Letter from the CEO

---

## **Welcome Purdue Employees and Dependents,**

One to One Health is thrilled to partner with Purdue University to provide you with great patient care at the Center for Healthy Living. Our goal is to give patients quality clinical assessment and treatment, while focusing on the patient experience and relationship with the provider. My twenty years of practicing family medicine has taught me that putting patient needs first- results in the best outcomes. One to One Health will apply this patient-centric focus to all elements of the Center of Healthy Living. We believe healthcare should be easy and simple for patients.

One to One Health will continue to provide you with:

- Primary Care
- Acute Care
- Labs
- Wellness Programs
- Nutritional Counseling
- Health Coaching
- Employee Assistance Programs

In addition to increasing appointment accessibility, we are focusing on connecting the Center of Healthy Living with the Medical Community, and have enlisted physicians from several groups to practice part-time in the CHL.

We always want to hear from you. Please contact us to schedule a visit, provide feedback, and request information.

Purdue Center of Healthy Living  
1400 W. State Street Building B Suite C  
West Lafayette, IN 47907  
765-494-0111

Sincerely,

Dr. Keith Helton  
CEO  
One to One Health
