Policies & Concepts

Employee Responsibilities

- Accurately recording time worked
- Selecting the appropriate job when recording time (if employee records time for multiple jobs)
- Proactively working with their supervisor to resolve issues as needed
- Ensuring that their time is recorded completely and accurately and submitted for supervisor approval following their final work day of each week.
- Remember: The time entered into the system will be considered true and accurate as of the end of an employee’s pay period. It is the employee’s responsibility to review their time often (at least at the end of each shift and at the end of the pay period) to make sure the recorded hours are true and correct; and to review and confirm the accuracy of any changes that a supervisor makes to time entries.

Supervisor Responsibilities

- Proactively working with their employees to resolve issues as needed
- Reviewing/approving all time sheets for all of their employees by 10:00pm on the Monday following the end of each pay period
- Proactively working with the business office to update employee work schedules and report costing exceptions for their employees’ time worked
- Remember: The time entered into the system will be considered true and accurate as of the end of an employee’s pay period. It is the employee’s responsibility to review their time often (at least at the end of each shift and at the end of the pay period) to make sure the recorded hours are true and correct; and to review and confirm the accuracy of any changes that a supervisor makes to time entries.
Resources

The most current versions of all timekeeping resources for Employees and Supervisors can be found on the Payroll's SuccessFactors Timekeeping website. [https://www.purdue.edu/timehelp](https://www.purdue.edu/timehelp)

Overtime

SuccessFactors adheres to the University policy regarding overtime. When a full-time employee records over 40 hours in a workweek, the time will be designated as overtime. “Hours worked” in a work week will consist only of hours actually worked. (Exception: Worker’s Compensation, University Holidays).

Overtime for employees with multiple positions will be charged to each position based on the ratio of hours worked across the employee’s positions for that week.

Holidays, Moving Holidays, Holiday Emergency Work

Holidays

Holiday premiums are auto-calculated when time is recorded.

Moving Holidays

Moving Holidays takes place within SuccessFactors Request Time Off tile. Individuals whose work schedule does not include a given University Holiday can use the time off feature within SuccessFactors to request Holiday on any day during the week (Sunday through Saturday) of the holiday. Exception: Police and Fire may request Holiday leave at any time throughout the year.

Unplanned Work During an Emergency

When essential personnel work during an emergency, the hours are paid at time and a half. The employee or their supervisor must enter the time on the employee’s timesheet in Employee Central Time (ECT) using time type Campus Service Disruption.

Unplanned Work on a Holiday

When employees are unexpectedly required to work on a holiday, Call Back should be indicated and the employee should record working hours as usual. The holiday premium will be automatically applied.
