DATA LANDSCAPE MATRIX

The Data Landscape at Purdue University is rich and robust. It is a multi-varied environment comprised of multiple systems and business intelligence reporting and visualization tools. The Matrix is designed to provide a high-level overview and guide of the data landscape. The Matrix offers users the ability to quickly access key contact information for data validation, data quality, and reporting.

FREQUENTLY ASKED QUESTIONS

Q. What is the Data Landscape Matrix?
A. The Data Landscape Matrix provides a high-level overview of the data landscape of the key entities within the data community. The Matrix provides information about key customers and systems, a list of primary responsibilities, and links to resources to assist you in troubleshooting for the following six areas: BICC (Business Intelligence Competency Center), IDA+A (Institutional Data Analytics Assessment), SPS, AO, Finance, and HR.

Q. How do I navigate and best utilize the Matrix?
A. The Matrix includes direct hyperlinks to the primary resources for information and direct contact information. Utilize the Matrix to learn more about the scope of work of each functional area. The “Start Here” section provides suggestions on where to obtain additional information. In addition, users will learn how to access data requests and report quality issues. Finally, the Matrix lists the primary tools users should use when beginning to validate data.

Q. Where do I go to learn more detailed information on the topics presented in the Data Landscape Matrix?
A. Institutional Data Analytics Assessment (IDA+A) provides users with access to a comprehensive list of Frequently Asked Questions (FAQ). Please view IDA+A Frequently Asked Questions to see the variety of topics available.

Q. Where do I go for additional training and resource information?
A. Please view the Institutional Data Training Collection housed within SuccessFactors Learning Management System (SF-LMS). The collection houses an array of training topics on data governance, reporting, and tool training.
