

Quick facts on the LTAP MS4 Training Modules...
Module 10: Inspecting Post-Construction BMPs
THE POST-CONSTRUCTION TRAINING MODULE SERIES

These training resources are available at no cost to the user and are available on-demand via the LTAP website: www.purdue.edu/intlap/

MODULE 1: MS4 POST-CONSTRUCTION PROGRAM OVERVIEW

MODULE 2: POST-CONSTRUCTION PROJECTS OVERVIEW

MODULE 3: KEY COMPONENTS OF MS4 POST-CONSTRUCTION PROGRAMS BEFORE OR DURING A NEW PROJECT

MODULE 4: KEY COMPONENTS OF MS4 POST-CONSTRUCTION PROGRAMS AFTER A PROJECT ENDS

MODULE 5: STORMWATER POLLUTION PREVENTION PLANS

MODULE 6: POST-CONSTRUCTION BEST MANAGEMENT PRACTICES (BMPs)

MODULE 7: POST-CONSTRUCTION IN TIGHT SPACES & OTHER CHALLENGES

MODULE 8: POST-CONSTRUCTION BMP MAINTENANCE

MODULE 9: KEY COMPONENTS OF AN MS4 INSPECTION AND MAINTENANCE PROGRAM

MODULE 10: INSPECTING POST-CONSTRUCTION BMPs

MODULE 11: BMP MAINTENANCE WORK FORCE

Post-Construction Program Training
Module 10: Inspecting Post-Construction BMPs

Module 10 is intended for MS4 or municipal staff, developers, contractors, landscapers, homeowner's associations, or anyone else involved in inspecting post-construction best management practices (BMPs). In this module, we will discuss key aspects of post-construction BMP inspections, when a municipality may decide to step into the post-construction inspection role, and how to navigate the critical components of documentation and enforcement.

Many of the post-construction BMPs utilized are installed during or near the end of the active construction phase. Post-construction BMPs should be inspected at the end of a construction project to ensure that they are functioning properly.

Learning Objectives of Training Module 10 include:

1. To describe how to inspect common post-construction practices.
2. To discuss the components of compliance documentation regarding post-construction inspections.
3. To review basic types of enforcement and escalating penalties.
