

Quick facts on the LTAP MS4 Training Modules...
Module 11: BMP Maintenance Work Force
THE POST-CONSTRUCTION TRAINING MODULE SERIES

These training resources are available at no cost to the user and are available on-demand via the LTAP website: www.purdue.edu/intlap/

MODULE 1: MS4 POST-CONSTRUCTION PROGRAM OVERVIEW

MODULE 2: POST-CONSTRUCTION PROJECTS OVERVIEW

MODULE 3: KEY COMPONENTS OF MS4 POST-CONSTRUCTION PROGRAMS BEFORE OR DURING A NEW PROJECT

MODULE 4: KEY COMPONENTS OF MS4 POST-CONSTRUCTION PROGRAMS AFTER A PROJECT ENDS

MODULE 5: STORMWATER POLLUTION PREVENTION PLANS

MODULE 6: POST-CONSTRUCTION BEST MANAGEMENT PRACTICES (BMPs)

MODULE 7: POST-CONSTRUCTION IN TIGHT SPACES & OTHER CHALLENGES

MODULE 8: POST-CONSTRUCTION BMP MAINTENANCE

MODULE 9: KEY COMPONENTS OF AN MS4 INSPECTION AND MAINTENANCE PROGRAM

MODULE 10: INSPECTING POST-CONSTRUCTION BMPs

MODULE 11: BMP MAINTENANCE WORK FORCE

Post-Construction Program Training
Module 11: BMP Maintenance Work Force

PURDUE UNIVERSITY Local Technical Assistance Program

Building and maintaining stormwater infrastructure is continuing to be a critical piece of the country's infrastructure needs. Aging infrastructure, more stringent requirements from regulatory agencies, and more frequent and intense rain events due to climate change will stress the existing post-construction stormwater infrastructure.

Module 11 is intended for municipalities, businesses, property owners, and homeowner's associations that are searching for workers to help implement the post-construction program, including inspections and maintenance. In this module, we will discuss the knowledge base and critical skills that are needed for post construction BMP maintenance as well as where you might find potential staff to complete these tasks.

Learning Objectives of Training Module 11 include:

1. To understand the knowledge base and critical skills that are needed for BMP post-construction maintenance.
2. To recognize strategies to train existing staff and recruit new staff to perform post-construction BMP maintenance.
