Quick facts on the LTAP MS4 Training Modules...

Module 8: Post-Construction BMP Maintenance

THE POST-CONSTRUCTION TRAINING MODULE SERIES

These training resources are available at no cost to the user and are available on-demand via the LTAP website: www.purdue.edu/inltap/

MODULE 1: MS4 POST-CONSTRUCTION PROGRAM OVERVIEW

MODULE 2: POST-CONSTRUCTION PROJECTS OVERVIEW

MODULE 3: KEY COMPONENTS OF MS4 POST-CONSTRUCTION PROGRAMS BEFORE OR DURING A NEW PROJECT

MODULE 4: KEY COMPONENTS OF MS4 POST-CONSTRUCTION PROGRAMS AFTER A PROJECT ENDS

MODULE 5: STORMWATER POLLUTION PREVENTION PLANS

MODULE 6: POST-CONSTRUCTION BEST MANAGEMENT PRACTICES (BMPs)

MODULE 7: POST-CONSTRUCTION IN TIGHT SPACES & OTHER CHALLENGES

MODULE 8: POST-CONSTRUCTION BMP MAINTENANCE

MODULE 9: KEY COMPONENTS OF AN MS4 INSPECTION AND MAINTENANCE PROGRAM

MODULE 10: INSPECTING POST-CONSTRUCTION BMPs

MODULE 11: BMP MAINTENANCE WORK FORCE

Post-Construction Program Training
Module 8: Post-Construction BMP Maintenance

PURDUE UNIVERSITY | Local Technical Assistance Program

Module 8 is intended for MS4 or municipal staff, developers, contractors, landscapers, homeowner's associations and anyone else involved in maintaining post-construction best management practices (BMPs). This module will cover post-construction BMP maintenance, including using the operation and maintenance manual, approaches to maintenance, types of maintenance, and maintenance costs.

Long-term maintenance of structural post-construction BMPs can make or break a post-construction program. All structural post-construction BMPs require some amount of maintenance, and some require more intensive maintenance.

Learning Objectives of Training Module 8 include:

1. To Identify the key components of an operation and maintenance manual.

2. To compare the different types and approaches to post-construction BMP maintenance.

3. To examine the cost of post-construction BMP maintenance.

For Review; 03-19-24
